BURGES HIGH SCHOOL

EL PASO, TEXAS

May 1985

TO THE STUDENTS OF BURGES HIGH SCHOOL:

In my long association with education, I have seen education progress through three different movements; Sputnick, Liberalism and now the present.

I have noticed an interesting change in students' attitudes and ideals. The move definitely has been from liberated to conservative and has been a reflection of a similar move in society.

Students now seem to have a seriousness of purpose, a consciousness of appearance and a keener sense of discipline and responsibility. The change is most welcomed.

To the graduating seniors, I wish you success in whatever endeavor you choose.

SINCERELY,

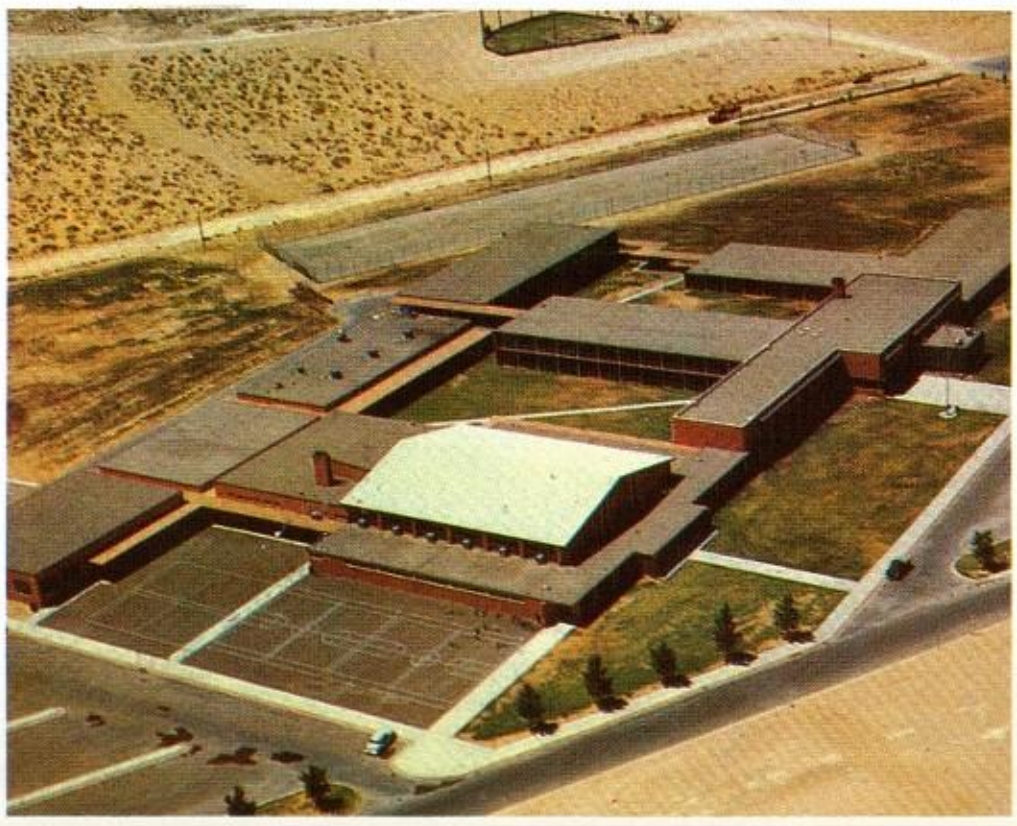
Burges high school first opened ts doors to students in 1955, and has continued this sort of ceremonial event for many years. This year the school celebrates its 30th anniversary. The list of events during these thirty years is endless, from new fads to new faces, and new faculty to new facilities. The library was added in 1980 and the journalism room in 1983. This year the students and faculty experienced a few disturbances as the girls' gym went under construction in the summer. As for the students and faculty, there have been many changes in their styles and ways of life. There have been many new faces in the faculty, especially in recent years. This has created a new kind of spirit in Burges and with the new students every year, this spirit continues to grow.

Thirty years of progress

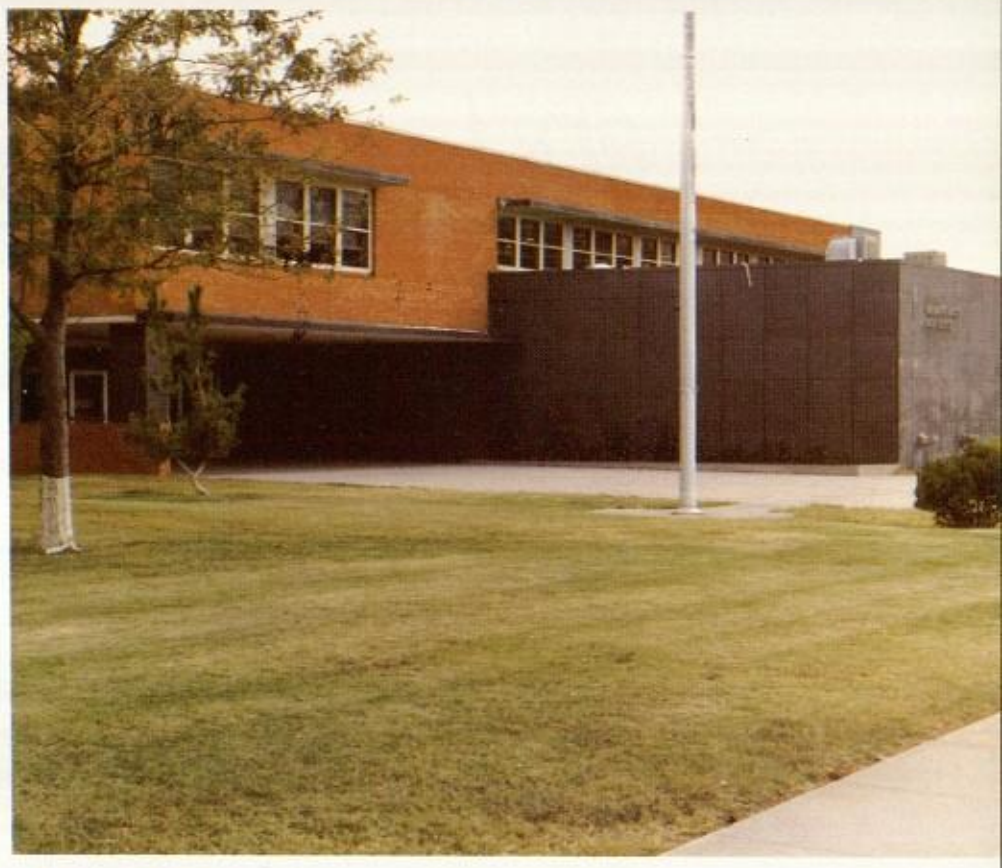


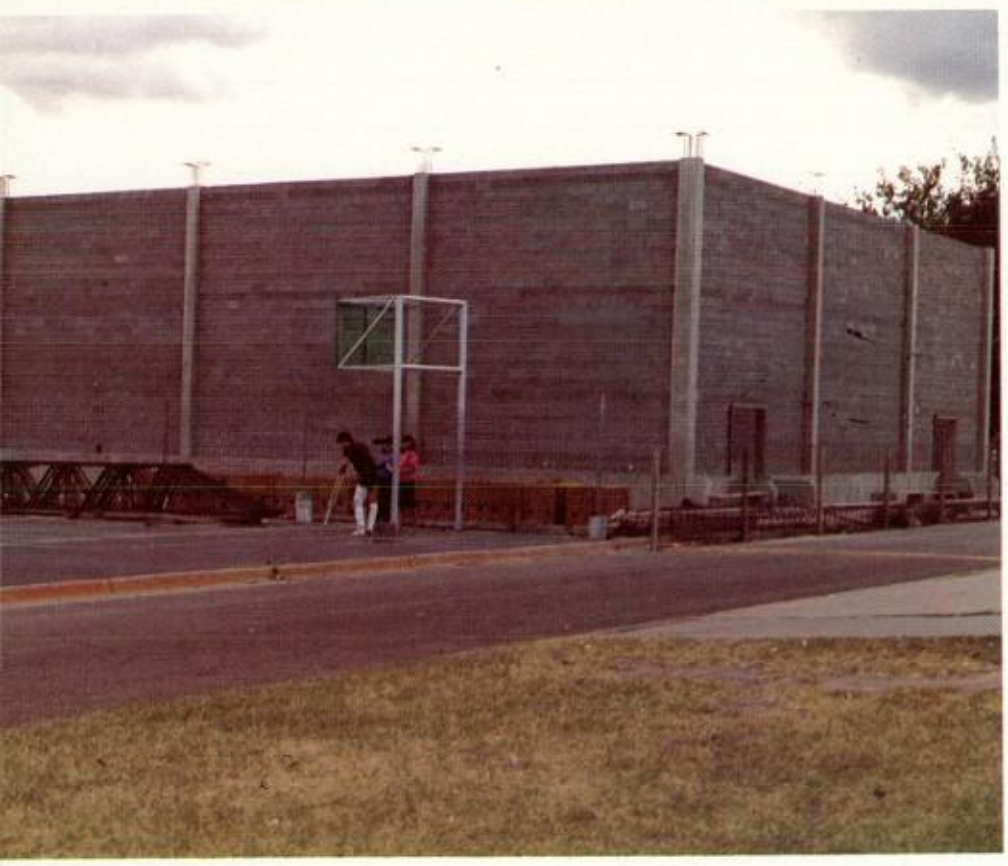
Burgess High School, named after William H. Burges, first opened its doors in 1955. Attending it were students from the seventh grade up to twelfth grade. When MacArthur and Ross were built, the seventh through ninth grades were eliminated leaving tenth, eleventh, and twelfth grades.

Through the history of Burges, there has been three principals. From 1955 to 1968 Don L. Mitchell was the principal and the Assistant Principal was Virgil Welch. Clifford F. Schmidt then became principal from 1968 to 1970. From 1970 until now, Mr. Tom Chavez has been the principal together with Mr. Craigo, Mr. Silva, and Mrs. Jorjorian as Assistant Principals.

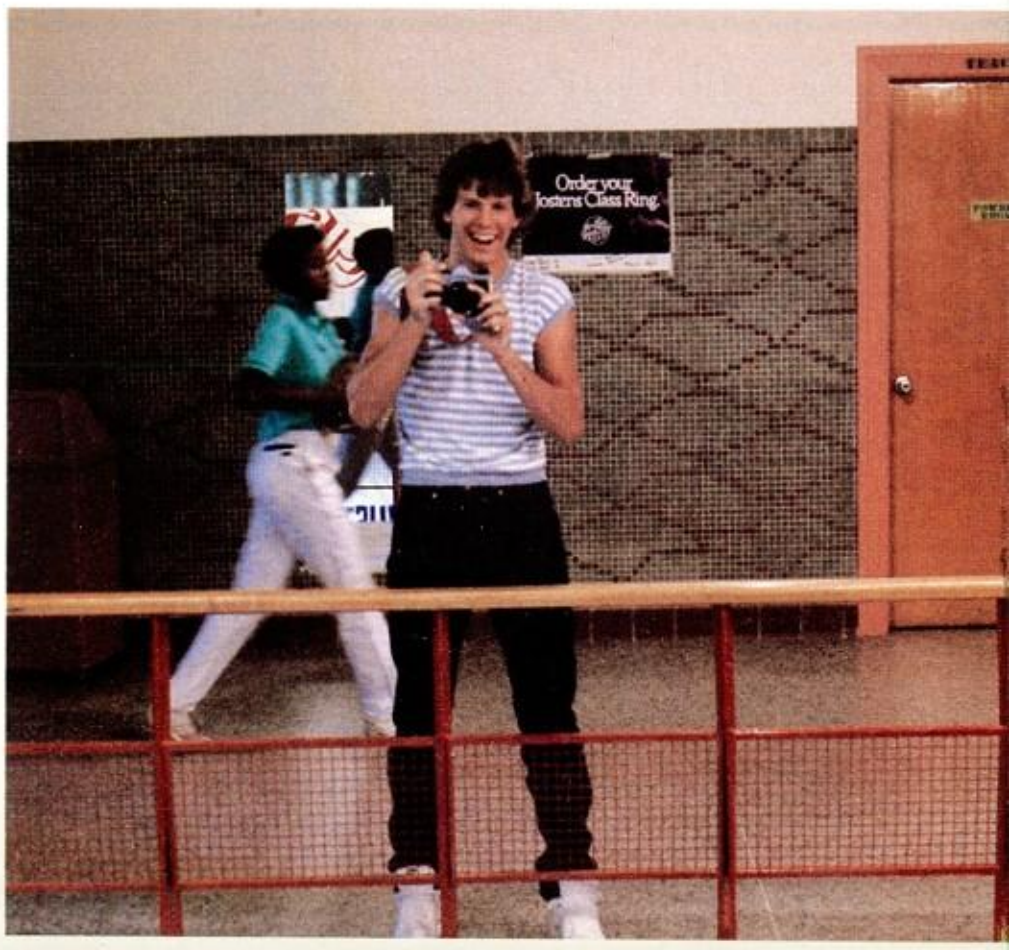
The semester system was introduced when the school first opened and is still being used. As for the grading system, it was the same then as it is now. In the beginning school attire was very strict. The boys had to wear belts and adhere to conventional hairstyles. No metal cleats were to be worn on the soles of shoes at all.

Some of the teachers we have now were here when the school first opened. Mr. Russell taught mechanical drawing and was a trainer for the football team. Wesley Hradek taught, and still is teaching orchestra. Mr. Albert Gutierrez, now the Student Activities Director was then the ROTC instructor.





The best thing about the future is that it comes just one day at a time.



A group of proud winners

Starting off the school year can really be a tremendous job for the Yearbook Staff. Especially when they walked into the Journalism classroom, knowing all the work that was ahead of them.

The 84-85 Hoofbeats staff consisting of 15 members, (which was smaller than last year's staff), started working on the yearbook in the month of August. This year's hardworking staff were as follows: Editors, Jesse Moreno, Sammy Tinajero, with Lily Tovar and Rosa Ortega as Assistant Editors. Kathy Salem, Diana Ruybe, Martin Castaneda, David Lardizabal, Mary Lou Hernandez, Mark Waltman, Bill Munnich, Liza Muro, Nora Noriega, Fernie Martinez, and Terri Sherwood.

All of these students made a great effort in making the yearbook a success. There were arguments and disagreements, but there was also harmony, patience and lots of cooperation among them. They all worked together as one big family, knowing the pressure it took to have a yearbook ready for publication.

There were times that were good and times that were bad. But when one thought of the whole student body depending on the staff to come out with an annual, there was no limit as to how hard they had to work.

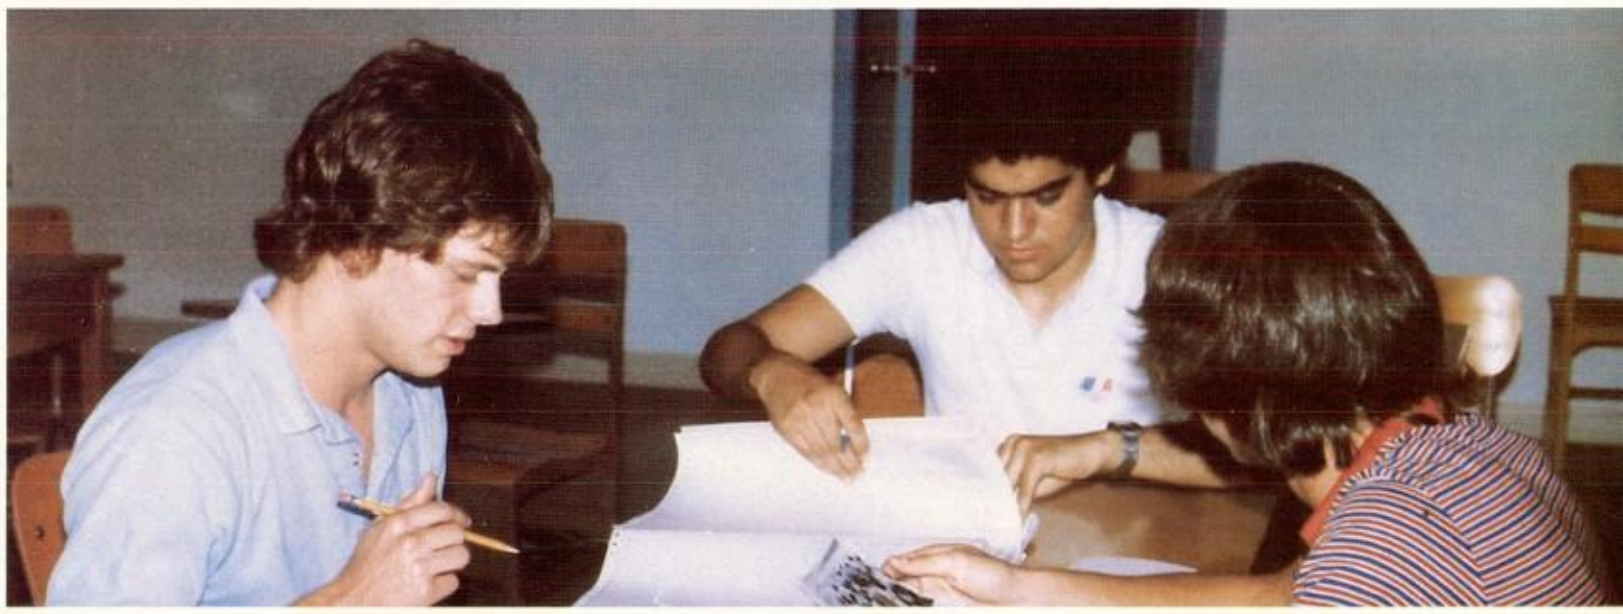
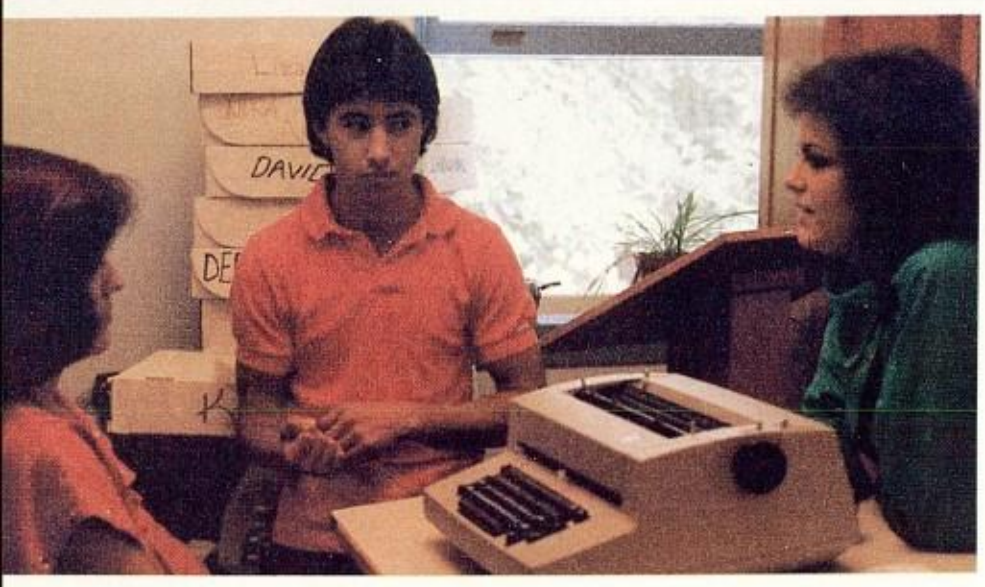
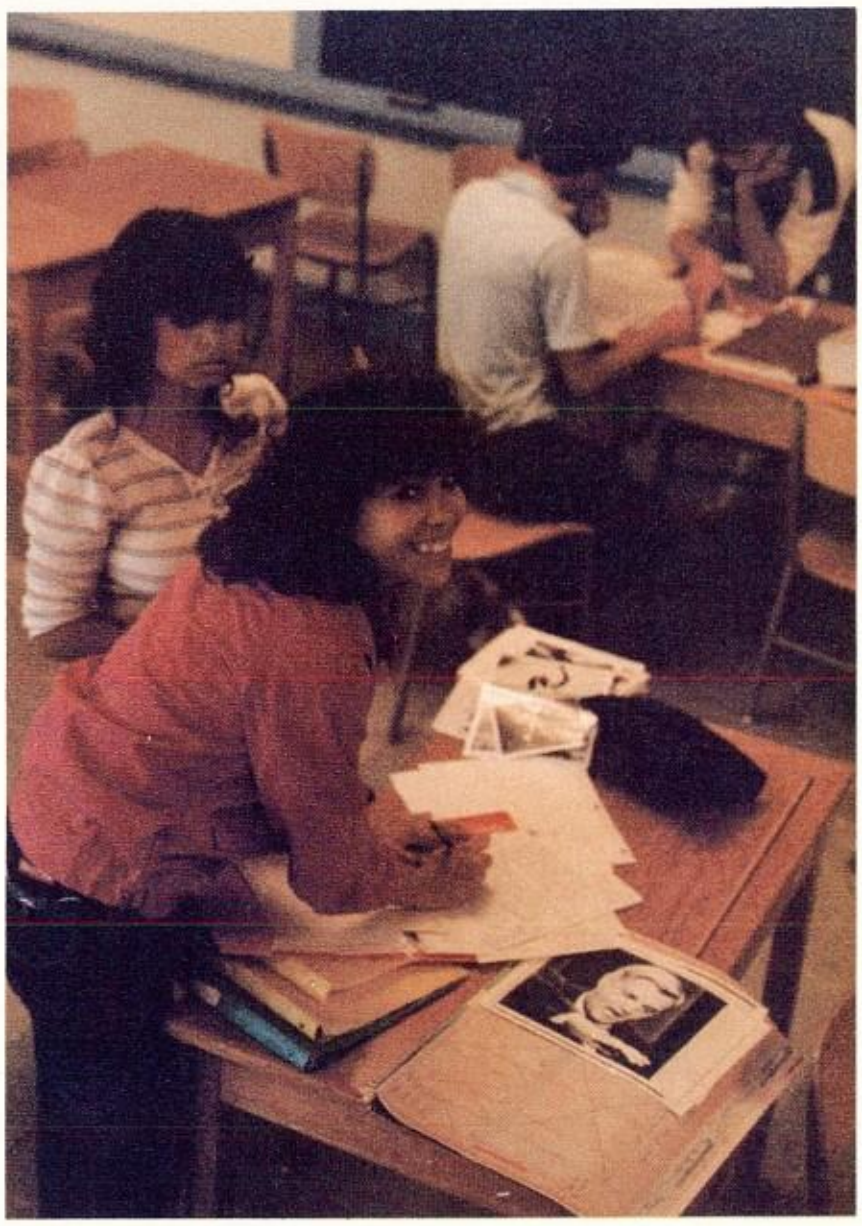
Senior Mary Lou Hernandez smiles for the camera while helping Junior Diana Ruybe complete her job.







A variety of looks and styles

Throughout the year many fads came in and out, including new fashion trends, which ranged in a variety of clothing and hairstyles. These fads affected students from all cliques.

501's, button downs, topsiders, and loafers were some of the popularized items worn by the students. The Preppy look seemed to be a favorite among the students.

Cropped pants, striped jeans, and sets of matching clothes were also worn. They came in a variety of styles and colors. Flamboyant accessories such as twisted necklaces, bangle bracelets, and exotic earrings were supplements of apparel. One could dress up differently as each day went along.

Even though assortments of clothing came out for '84 and '85, designer jeans were still popular. A pair of Jordache could be worn casual or some effects could be added for a more outgoing look.

In order to add the finishing touches for an evening out, many considered putting some jewelry on, while other items would just show off the latest fads.

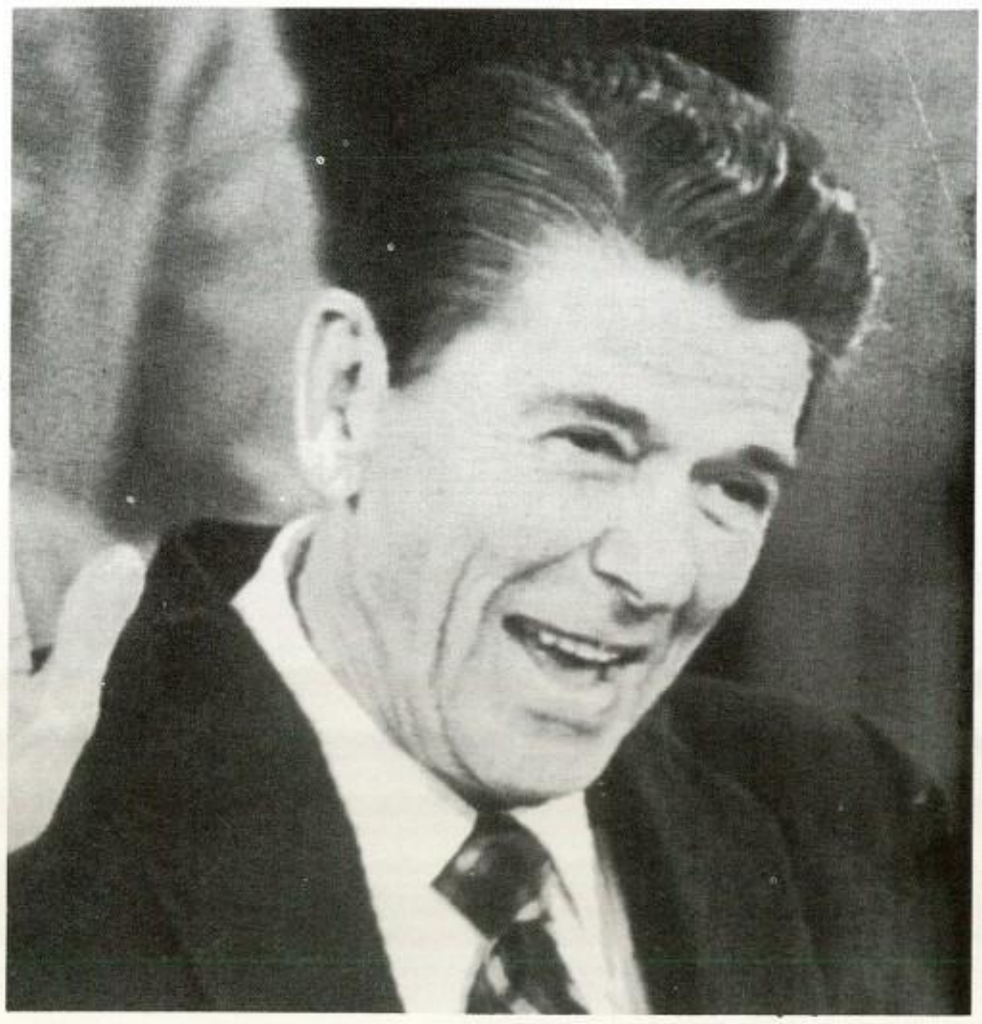
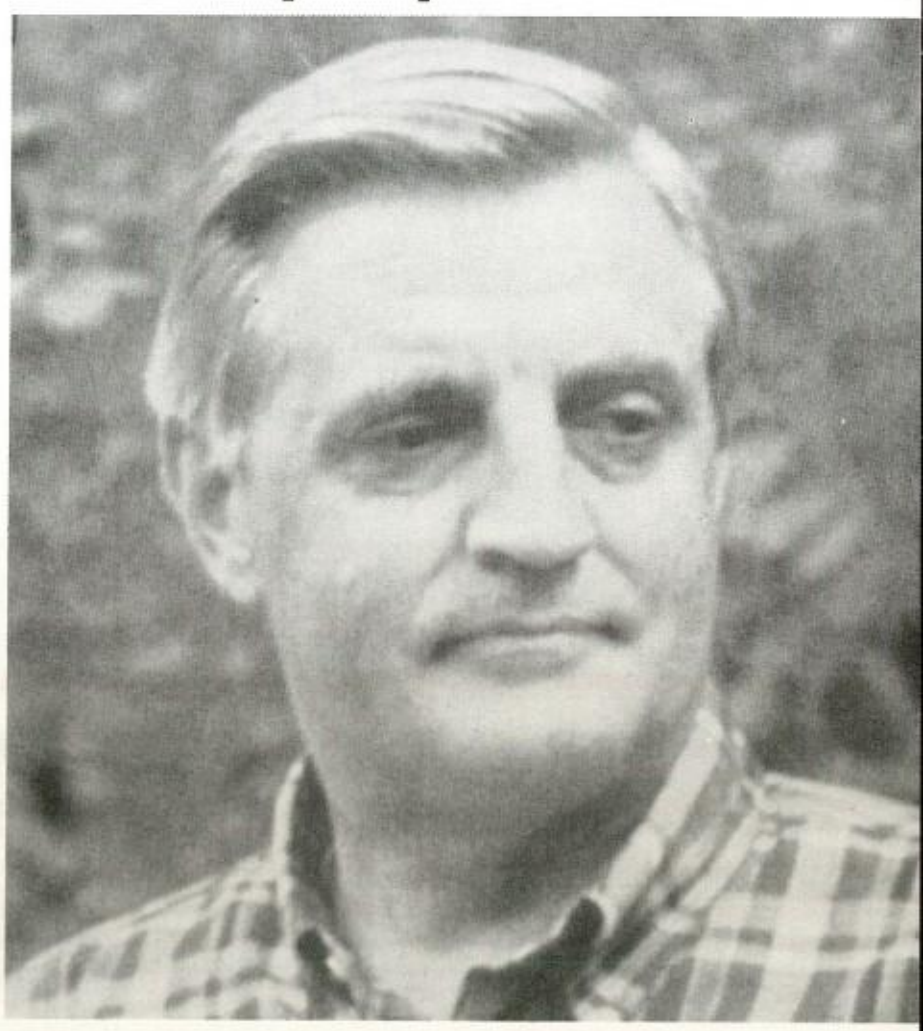
A new breed of entertainers

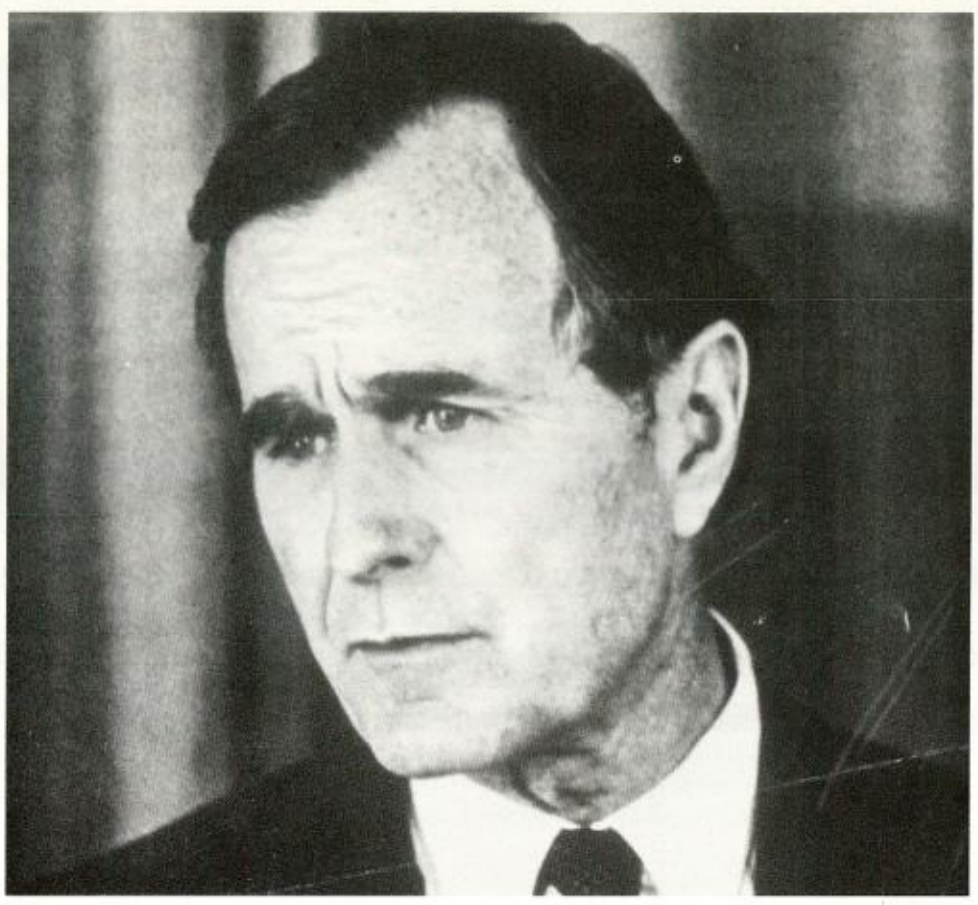
Among those who thrilled and chilled millions of Americans were Vanessa Williams and Michael Jackson. Vanessa Williams, a 21-year-old student at Syracuse was crowned this past year as Miss America, and was the first black woman to do so. She carried the crown, some said, better than anyone in the tradition of the Miss America pageant had ever done. Her dream of being Miss America was not fulfilled for very long because of a mistake in judgement. Ms. Williams was asked to resign as Miss America seven weeks before the end of her reign because of pictures to be published in the August issue of Penthouse. Despite her misfortune she kept the support of most Americans. She will appear in the November and January issues of Penthouse, a television series, and is expected to release an album.

Among those in the top names of the entertainment world, Michael Jackson was placed in the ***Guiness Book of World Records*** *for recording Thriller, an album that sold over a million copies. This past year he began a tour of America and the world with his five brothers. Michael Jackson will continue to thrill millions of people for years to come.*

Candidates vie for top spot







Ronald Reagan enjoying warm welcome.

Walter Mondale making speech for congress.

George Bush speaks straight from the heart.

Geraldine Ferraro states a view.

Campaigning all over the nation the candidates faces were known to all the people. Much of the attention for this year's election was mainly centered around the Democratic running-mate Geraldine Ferraro, who just happened to be the first woman to ever run in any presidential election.

During most of Mondale's and Ferraro's political touring, Ferraro usually overshadowed Walter Mondale, while on the Republican side Reagan and Bush received their share of publicity. Not only did women's equality finally reached one of the presidential elections, but Ronald Reagan turned out to be the oldest candidate to run for the presidential office, at the age of 70. The platforms of the candidates ranged from taxes to the conflict of religion, which dealt with the school prayers in school.

When both political parties had their conventions one could clearly see that a great group of people were out there supporting their candidates.

U.S.A. dominates Olympics

For the first time in over half a century, the summer OLYMPICS were held in the United States. Colleges all over California offered their gyms, stadiums, and fields for the need of the Olympians. America had the largest number of medals by winning 174 medal total. America had immense competition with West Germany who had the second largest medal count.

The United States might have had more competition if Russia had not boycotted, with the fear of the Gymnasts being killed and the fear of them defecting on their own will. The opening and closing of the games had spectacular visual and Audio effects, yet the Olympic games was said to be filled with too much propaganda.

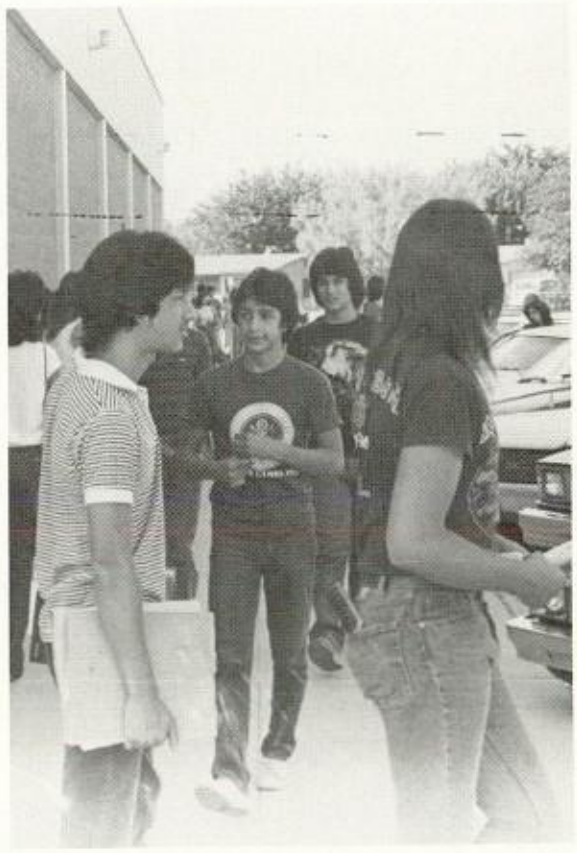
After school traffic jam



Most students usually encounter a traffic jam during the day. In the halls, at lunch, and even after school. After school is when most jams take place. Students are in a hurry to get home, so traffic builds up in the parking lot. In the student parking lot, there is only one exit to leave the parking area. Long lines usually form at the exit by students, in cars, waiting to go home.

Students wait impatiently to leave the parking lot.

Favorite bands among students

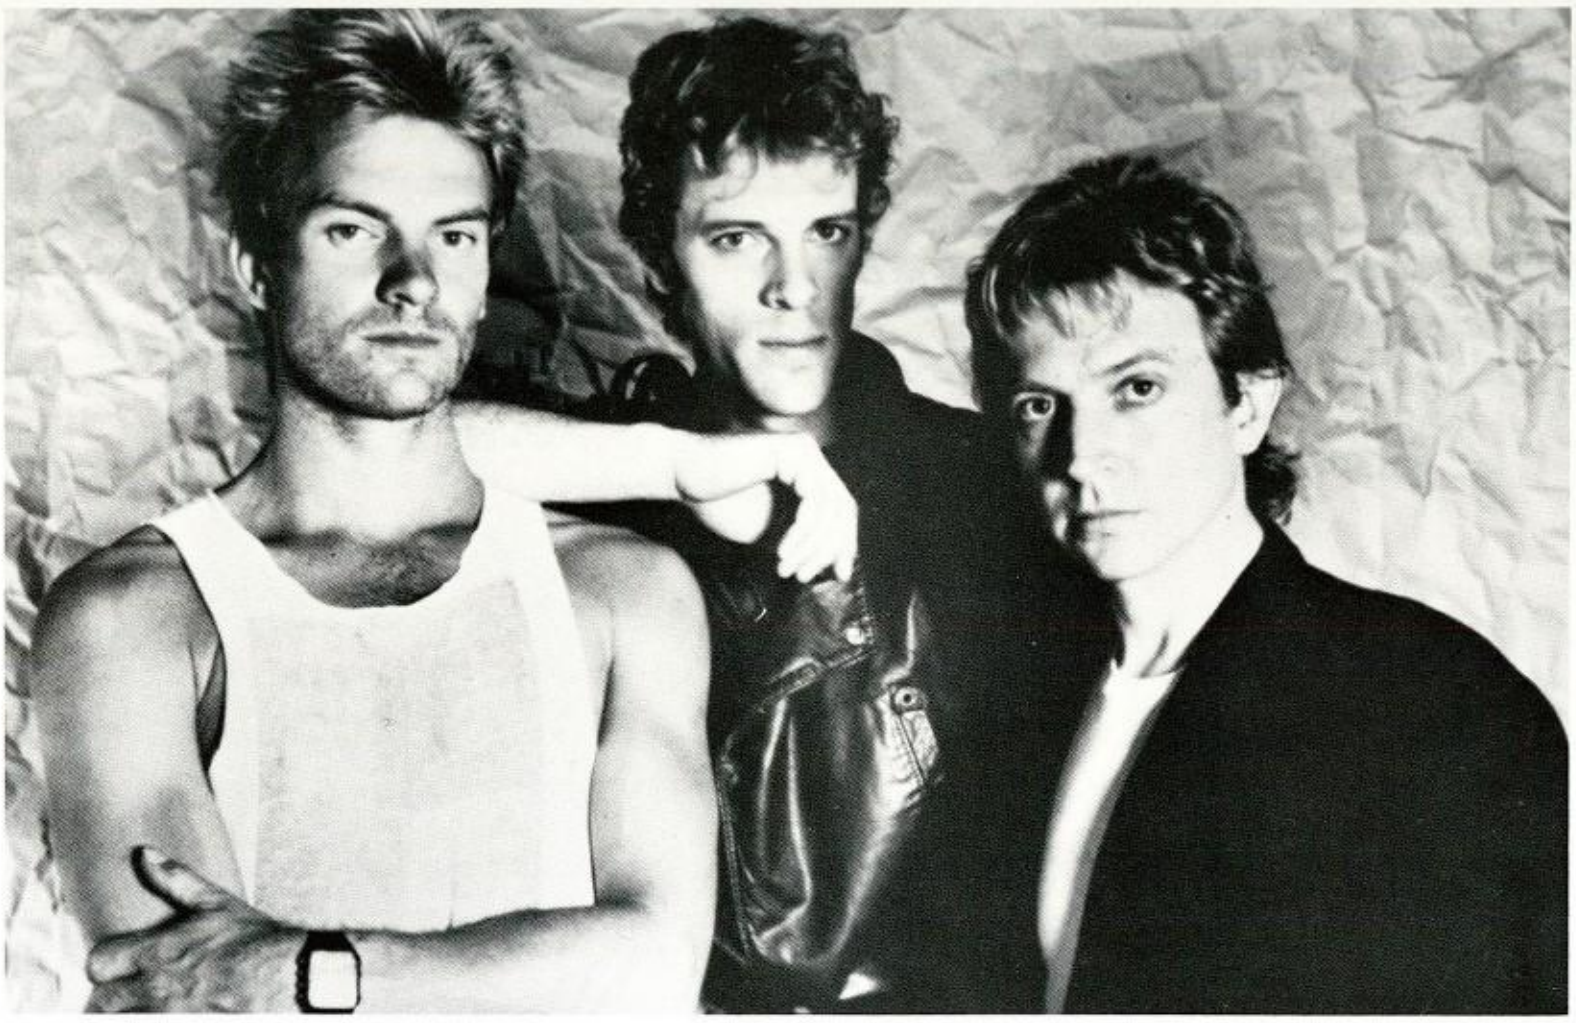
Concerts are one of the main attractions among students at Burges High School. Some of the concerts held during the year at the Coliseum in El Paso and Pan Am in Las Cruces were Rush, Billy Idol, Krokus, Rick Springfield, and Twisted Sister.

A variety of music is listened to ranging from rock music to heavy metal. A few of the favorite bands and performers among students are Def Leppard, Robert Plant, Billy Idol, Van Halen, Rush, The Police, Scorpions, Motley Crue, Duran Duran, Billy Squier, ZZ Top, and Pat Benatar.

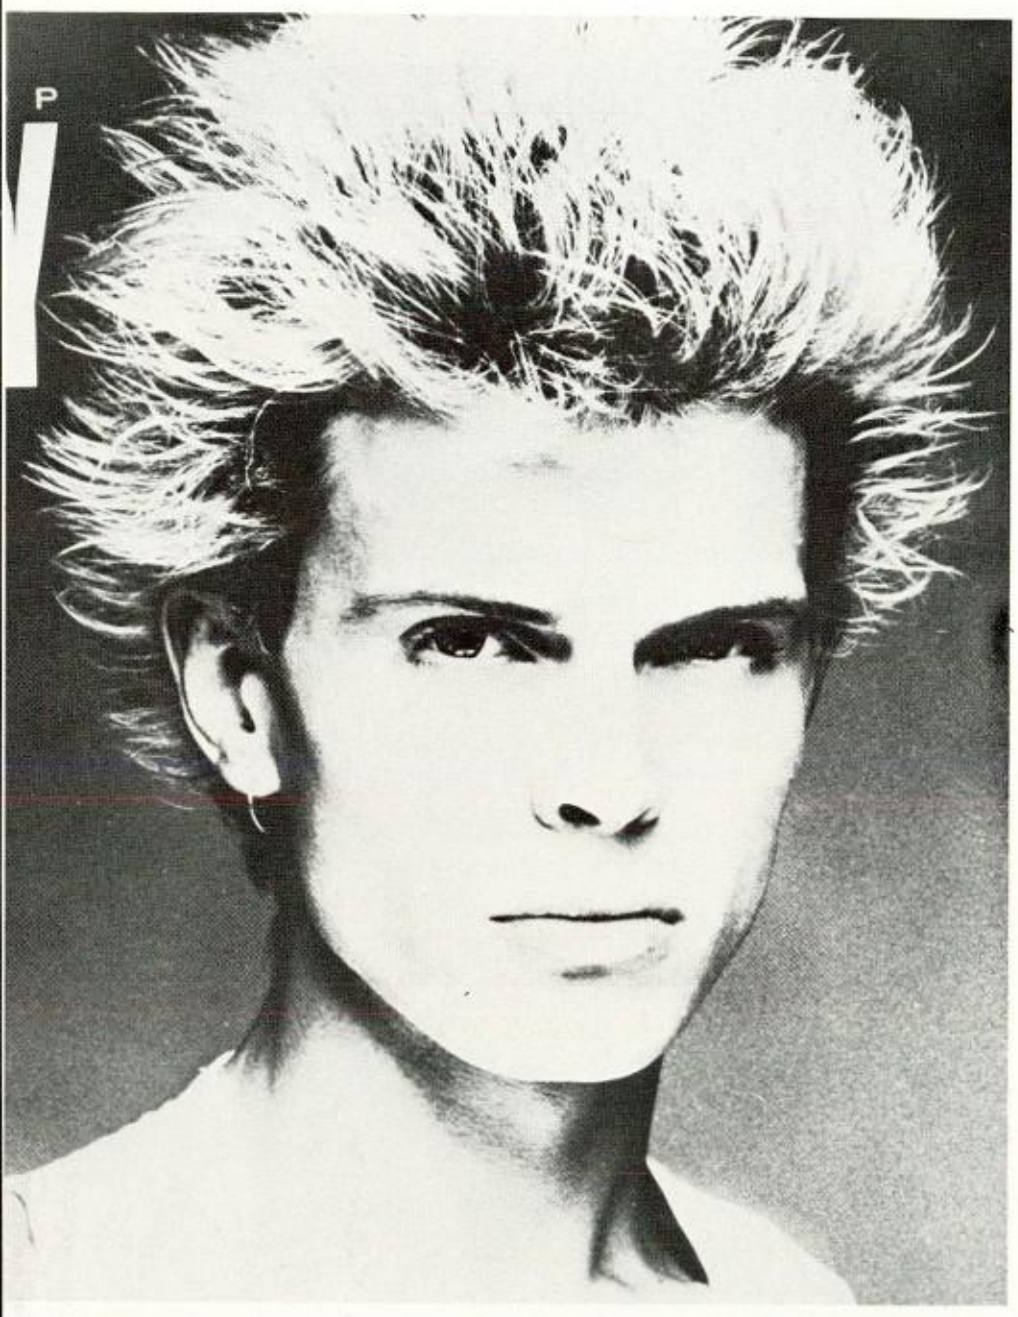
One of the favorite new bands that many students liked this year was Ratt. Which came to El Paso on August 2nd. A student at Burges commented on the band and said, "I like Ratt because they look great and sound good."

While many students went out to parties, others decided to make the summer more interesting by attending concerts. Psycho, a student at Burges said, "I go to concerts because it makes you feel close to the people."

Members of the band Rush are as follows: Alex Lifeson, Neil Peart, and Geddy Lee.



One of the popular bands, The Police, consists of Sting, Stewart Copeland, and Andy Summers.



Billy Idol performed at the El Paso County Coliseum on August 18th.

The lead singer for the band Motley Crue is Vince Neil.

Female singer, Pat Benatar.

Mustang Spirit

Around the school there are constant reminders of our team spirit. Among these reminders are those of spirit banners hung in the halls and on the walls of the stairway. As the athletes drive into the parking lot in the morning, streamers of purple and gold are placed on the cars. Cheerleaders promote their spirit by selling spirit ribbons, clips, and bumper stickers.

Our team spirit is to show our pride in the school. This is usually brought out at the pep assemblies. The band plays a major part in our assemblies. As they play the fight song, cheerleaders and students get rowdy and the teachers also participated.

A journey made worthwhile

Andress, Austin, Jefferson, and Irvin, students come from all over the El Paso District. What for? For a journey made worthwhile. Burges buses students from all over the district for different purposes. Some because of the HILT program, others because of the boundries Fort Bliss has, and others simply because they choose to.

Busing here at Burges started in the late 70's as part of a desegregation plan that was put throughout the city to equalize all ethnic groups in the various schools.

Some students get up as early as 4:00 AM to get ready and catch the bus. Some ride public transit buses, while others ride school buses.

Of course being bused to a different school has its advantages and disadvantages. One of many advantages is making new friends and getting involved in the many programs the school has to offer. Of course this also creates a problem in that a lot of these students who are involved in certain activities get home as late as 7:00. Nevertheless, they prefer Burges above the rest.

Not happy but determined students head for the bus to go home.

Shelley Wise waves good-bye to another school day.

The bus waits for everyone.

Council for students

Student Council has always been very active in school activities. It has always had a large number of members and this year was no exception. The Club is sponsored by the Student Activities director Mr. Albert Gutierrez. The officers for the 1984-85 school year were President Carrie Esparza; Vice President Sally Hurt; second Vice President Elia Hernandez; Secretary Pat Suarez; and Treasurer Bobby Rubio.

Student Council took part in different activities such as making spirit posters for sports, helping at teacher in-service, sponsoring the Homecoming Dance, Public Relations, helping at the concession stands, and many more avents.

Throughout the year Student Council has had fund raisers such as selling candy, messages, and other various things.

All in all Student Council had a very good year. With the cooperation of the students, it will continue that way.

SCHOOLDAYS

V.O.E. successful as

Vocational Office Education helps its students to prepare for business oriented careers, particularly in clerical and secretarial fields. It is a two hour lab class which provides detailed training in typing, filing, bookkeeping and other clerical skills. It also provides the student with a sense of responsibility, loyalty and cooperation. The student also gains experience in the business world by learning how to operate a word processing machine and electronic calculators.

The leadership conferences for competition of various office skills were held March 28-30, 1985 at SLC Austin and April 26-30, 1985 at NLC Houston.

The VOE instructor, Mrs. Gilliland, has been teaching for 10 years. This year they had the privilege of also being taught by Mrs. Compton, a student from UTEP.

This year's VOE officers are Wanda Alderette, President; Chrystie Ramirez, Vice President; Renee Viramontes, Secretary; Elizabeth Espinoza, Treasurer; and Lily Rosas, Historian.

V.O.E. Co-op test their skills

Upon graduation, students enrolled in Vocational Education Co-op are prepared to enter the full-time job market in such positions as secretaries, receptionists, word processors, bookkeepers, file clerks, and bank tellers. In the V.O.E. Co-op classroom, actual work conditions are simulated and one half of each school day is spent working at jobs in the community. Students put present skills to work on the job and prepare for permanent jobs ***now.***

An integral part of the V.O.E. program is the Office Education Association (O.E.A.), the youth leadership organization for students interested in the business and office career field. Through club projects and area, state, and national contests, B.O.E. Co-op students refine their job, decision making, and leadership skills.

Prestige Journalism Club

Students who have done superior work in journalism are nominated for Quill and Scroll. Quill and Scroll is the school's journalism club.

All members of Quill and Scroll are nominated by Mr. Joel Mosier, the Hoofbeats and Stampede advisor. In order for a nomination, a student must have superior writing skills and be one of the top students in their class.

Quill and Scroll members compete for national scholarships and receive recognition on their individual transcripts. This year's members are: Donna Guillermo — Stampede editor, David Lardizabal — Hoofbeats photographer, Mary Lou Hernandez — Stampede assistant editor, Lily Tovar — Hoofbeats assistant editor, Liza Muro — Hoofbeats layout design, and honorary member Jesse Moreno — Hoofbeats editor and head photographer.

Stampede informs readers

The Stampede publishes a newspaper every three weeks. Each reporter is assigned 10 questions on their story to ask their sources. After interviewing their source they have to turn in a rough draft. Then the final draft is typed and submitted. Advertisements are sold in order to obtain the circulation of the school newspaper and gather revenue.

This year's editor in chief was Donna Guillermo; Assistant Editor was Mary Lou Hernandez; and the Feature Editor was Terrance Vestal. The chief photographer for the second year was Jesse Moreno. The rest of the reporters were in Mr. Mosier's third period Reporting A class.

The Stampede tied for first in the El Paso Independent School District competition of the Interscholastic League Press Conference newspaper competition held in March in Austin, Texas. The Stampede published eleven issues during the year.

A whole lot of things to sing about

For the second year around Mrs. Judy Lentz continued to bring out the special singing quality of her talented students.

This year Sylvia Smythe won 1st in region when she went to competition on October 6th and then from there she qualified to compete on December 10th for area. The Choral Competition held on May 11 was a great success and a super experience for the choir members.

On December 1st they attended the Parade of Choirs and they performed very well in the Christmas program held in the school gym.

Besides going into competition they also had a fund raiser of selling candies in order to raise money to attend a trip along with the band, which they did on April of this year, to San Diego, California.

In San Diego they competed with other schools but they had the opportunity to look around town and buy some souvenirs for their friends and relatives.

Some of the reasons why students joined choir was for the fun of it and also because some would like to pursue a professional career as singers. Whatever the reason they have given, they have all enjoyed it.

Choir Members, 1st row: Maria Ruiz, Raquel Hernandez, Nora Jaramillo, Norma Ruybe, Maria Carrillo, Arturo Rodriguez, Scott Johnson, Lori Cremer, Melody Jones, Alice Lo, Director – Judy Lentz. 2nd row: Stephanie Stovell, Sylvia Smythe, Staci Duncan, Laure Talamantes, Bonnie McDonald, Joe McKale, John Murphy, Jorge Dattoli, Janet Beck, Deirdre Holloway, Cindy Beck, Kristen Djerf. 3rd row: Phyllis Roberts, Terri Sherwood, Tisha Dominguez, Patricia Ward, Adrian Esparza, Larry Cano, John Hummels, Philip Riggins, Gerardo Galvez, Kathy Holmes, Cindy Simmons, Liz Soderstrom, Cindy Kessel.

Musicians diplay talents

Students heard it over the speaker at all of the football games' half-times: "Introducing the Pride of the East Side. The Burges Mustang Marching Band under the direction of Joe Jacobo, assisted by Arturo Gerardo." Then the school's largest and most spirited organization would march onto the field, led by drum majors Liza Muro and Joe Rosales, to perform a show for the football fans. Other band officers were: Alex Valmana, President; Marty Olivas, Vice President; Cesar Negrete, Treasurer; Michelle Diaz, and Ronnie Cardenas, Quartermasters; David Esparza and Tomas De La Riva, Librarians; Charlie Jauregui, Historian; Mike Castillo, Percussion Leader; Eddie Gallegos, Chaplain; and Desi Acosta and Yvette Ramirez, Flag Captains.

The Marching Band received a rating of Excellent at the El Paso Public Schools Marching Contest and also participated in the Veterans' Day Parade.

Band members chose the band court towards the end of the marching season. The court consisted of: Laura Romo, Sophomore representative; Gabbi Kennard, Junior representative; Liza Muro, Band Sweetheart; and Alex Valmana, Band Beau.

The symphonic and jazz bands also participated in various contests and performed concerts throughout the school year.

AMICI: Dancing to the beat

This year's dance group, Amici Chorea, started with tryouts which were held in September. The group consists of 11 girls, and is under the direction of Miss Irma Esparza. This year the girls put on a Christmas program and spring concert, respectively, in December and May. They participated in several fund raisers in order to purchase shirts and costumes. They attended a dance contest at Loretto Academy where they received ratings.

This year's officers consisted of President; Beth Cyprus, Vice President; Claudia Merren, Secretary; Veronica Martinez, Treasurer; Susan Alcala, and Historian; Kim Tinsley and Lynelle Wessling.

Che Viva L'Italia!

Though this year's Italian Club consisted of only nine members, partly due because Italian will no longer be taught in the El Paso Independent School District, the club still carried out as any other club and did quite well with its year round activities.

The members learned more about the culture, customs, language, and the importance of having some knowledge of other countries in this case, of Italy. In March the club members participated in the Foreign Language Festival, which was held at Thomas Jefferson High School.

But not all was work, their fund raisers began as early as October when they sold fabric calendars, later they sold a variety of candies with all the proceeds going to their famous Italian dinner which was held in December.

Towards the last days of May, all the students said their Arrivederci's to one another and one student summed the whole year by saying, "CHE VIVA L'ITALIA!"

Court to reign at annual ball

Queen Lydia Cantu

This year's military ball will be held at The Officers Club on March 2. Respectfully reigning as this year's queen will be CDT. Maj. Lydia Cantu. The previous year Ms. Cantu was elected Junior Princess, so being chosen as this year's queen was quite an honor for this young ravishing maiden.

To no surprise, everyone who is within this organization, will be involved in helping to get this annual eloquent event get underway.

In recent years, this yearly event was held during the winter months, but the ball was changed to the latter part of the year.

Staff Princess Yvonne Enriquez, Freshman Princess Lahoma Grey, Junior Princess Margara North, Senior Princess Regina Torrez, Queen Lydia Cantu, Lady-In-Waiting Cynthia Avant, Sophomore Princess Claudia Leos, A Company Princess Patricia Cantu, Drill Team Sweetheart, Tammi Muriel.

Cadets always on the move

ROTC, this word isn't always received with good taste around school. This is rather disappointing to the cadets who are in the program and are "always on the move," trying to improve the status of JROTC. With the cooperation of everyone, the 5th Batallion is slowly but surely becoming what it once was, the best in the city.

These cadets who let nothing stand in their way of enchancing the program, are always putting and giving in more than what is expected of them. Drill team and rifle team members who put in long hard hours of practice after school and sometimes on weekends, takes a lot out of these cadets. Nevertheless, they enjoy taking part in such activities and of course are commended for their dedication. So lets face it, you just can't stop this bunch from achieving their goal, "being the best."

SCO's get the job done right

This year's Senior Class Officers took the responsibilities of representing their Class. The elections were held in October and officers began work on class mottos and other projects soon after. This year's officers consisted of Veronica Martinez, President and also a member of the flag corps, Pegasus, Amici Chorea, and the French Honor Society. Vice President was Richard De la Cruz who was a member of the Varsity Basketball team and the Rowdies. Beth Cyprus, Secretary, also was a member of the National Honor Society, Mu Alpha Theta, President of Amici Chorea, and a Varsity Cheerleader. Luis Jaramillo, Treasurer, was a member of the Varsity Baseball team, Mu Alpha Theta, the Spanish Honor Society, the National Honor Society, and Student Council.

Enter a new era in electronics

During his first year at Burges High, Mr. Louis Davis has made a great impression with his students. Replacing retired Mr. Beeler, has not been an easy task for Mr. Davis.

Though Mr. Davis' teaching style is different from Mr. Beeler's, it is still effective. In one semester you learn ough to fix radios, T.V.'s and basic appliances around the house. When you finish the course you learn ough to go work in the field of electronics.

This year has started off slow for the club. Considering all the setbacks they have experienced they have grouped and brought the class back to normal.

They have just started with the Vica program and hope to completely have it at the start of next year. By next ar, Mr. Davis hopes to have everything back to normal so everybody can learn electronics.

Students exhibit perfection

This year's chapter of the National Honor Society consisted of 23 members, all under the leadership of club sponsors Mrs. Bell, Mrs. Brooks, Mr. Harp, Mrs. LaFoy, and Mrs. Lashus.

A student who is a member of N.H.S. has proven himself to be above average. The main requirement to become a member is to maintain an overall scholastic average of 90 percent, but members are also selected for such qualities as character and leadership.

Early in the year the club met to elect officers. This year's officers were: Leticia Dominguez, President; Donna Guillermo, Vice President; Mercy Hernandez, Secretary; and Felipe Jaramillo, Treasurer.

N.H.S. members participated in many activities such as the decorating of the halls for Homecoming Week, the annual Christmas party for the elderly, the Youth Scholar's Bowl at El Paso Community College, and the World's Congress at the University of Texas at El Paso.

J.V. has all the right stuff

This year's Junior Varsity cheerleaders started out the year right by cheering at the varsity volleyball games along with the infamous "Rowdies." They also helped out in promoting spirit by selling spirit ribbons and making posters for the various games and sports events of that week. All six members of the squad enjoyed their new responsibility and looked forward to participating in it again.

During the summer they attended the NSA cheerleaders camp at Loretto academy. There they received the Ambassador award and a superior trophy.

This year's varsity cheerleaders worked long, hard hours during the summer and were paid off when they went to camp. They attended a camp in La Jolla, California from July 30 to August 6th. There they got top honors, receiving the Ambassador award which is the highest award given to the best overall squad. They also received a superior trophy, six superior plus ribbons and a spirit award for being the friendliest squad.

Throughout the year they kept spirits high and tried their best to promote it by selling ribbons and making posters.

Although it was their last year cheering, when asked how they felt about doing it all over again Julie Apodaca said, "Definitely, because I really enjoy cheering and it's a big part of my life." They work so closely together that they feel they have made lifetime friends.

D.E.: Improving each year

Marketing and Distributing Education is a program of occupational instruction in the field of distribution and marketing.

One of the several goals DE has is the responsibility to help prepare workers who understand their responsibilities to society and who will strive to secure equal rights and opportunities for all.

Students who wish to be in this class must have a "C" average and be at least a Junior. Once in the class, they go to school half day and work the other half.

Each year DE participates in a program referred to as "Secret Santa." The program, sponsored by KHEY, helps children from south El Paso schools write to Santa. DE then goes to the station, picks up the letters, and delivers to these youngsters their requests.

Recipe for successful lives

The Future Homemakers of America (FHA) assembled this year under the direction of sponsor Mrs. Ann Bell. This club meets in the homemaking room on the first and third Tuesday of every month during the lunch hour. FHA is a state as well as a national organization. Texas is divided into ten areas. The area to which this chapter of FHA belongs to holds a meeting in February in Midland, Texas. The state meeting is held in April in Houston, Texas.

The officers' installation was held on October 2 in the Speechroom. This year's officers were: Patricia Bowden, President; Mary Ann Tattie, First Vice President; Irma Rivera, Second Vice President; David Sida, Third Vice President; Margarita Hernandez, Secretary; Alma Melendes, Treasurer; Akini Tada, Historian; and Claudia Preciado, Parliamentarian.

To raise money, FHA members successfully sold cookbooks. The club made a good profit from this sale. Club members also attended the annual FHA Christmas party on December 9.

Girls' club promotes spirit

Of all the clubs in school. Chiamba is the only remaining all-girls' club. The club's purpose is to promote spirit, help out at the concession stands, "To be of service to the school and athletic teams who ask for their help," Mrs. Burns sponsor, said.

Throughout the year, Chiamba has several activities. Among them are carwashes, helping out for teacher appreciation, and holding the annual Christmas dance which was held at the Rodeway Inn on December 28th.

This year's officers were Sponsor, Mrs. Ethel Burns; President, Julie Apodaca; Vice President, Melissa Ramos; Secretary, Yvette Ramirez; Treasurer, Laura Hernandez; Chaplain, Jackie Delgado, and Beau, Leroy Ifill.

To get into Chiamba, girls must attend tryouts and go through various initiation processes such as scum week when the girls are not allowed to dress up, wear makeup, or curl their hair. Scholastically the girls must maintain an overall C average to get in.

Spanish Honor achieves

This year Spanish Honor Club (SHS) consisted of 13 members which included Louie Castillos, Jerry Chaparro, Tisha Dominguez, Adrian Esparza, Ben Arravadez, Nora Jaramillo, Lisa Martinez, Yvette Ramirez, Marc Ranc, Monica Rodriguez, Lily Rosas, Michelle Santos, and Sam Morgan. Mrs. Delgado and Mr. Carrasco were the sponsors for this year.

To qualify for this honorary club, members needed to have had a third year of Spanish and had to maintain a B average in all classes.

Having had enough fund raisers in the past years, the club felt no need for any this year. They did however, buy Spanish T-Shirts which they proudly wore in the Foreign Language Festival held in March. In April the National Spanish Exam was held. This wa test of different levels which wa rated with other high schools in the El Paso School Districts.

"It is an honorary group whic helps promote languages and who had an interest in language acquisitions" was what Mrs. Delgado summed the Spanish Honor Society as being.

One of the most common guages spoken by the majority the students aside from English Spanish partly due because we e near our sister city Juarez. Be- this one of the many reasons, any students were enrolled in anish which has been taught for veral years by Mrs. Delgado. This year the Spanish Club con- ted of 26 members and officers were: President: Charlotte Mullen, Vice President: Rosanna Rivera, Secretary: Mike Ramos, Public Relations: Gabi Kennard.

One of the purposes of the Spanish Club was to introduce students to the advantages of another culture and language. "The Spanish Club for this year was small but we did accomplish what we set out to do" Charlotte Mullen said.

The club sold homecoming corsages and garters as a fund raiser, for their competitions and trips. They held an International Week during the month of March, and attended the Modern Language Speech Tournament March 23rd.

The Spanish Club worked hard and established a strong and meaningful club.

In a class by themselves

With a total of 24 members in this year's orchestra which is larger than last year, director Mr. Hradek comments "This orchestra compares very favorable to the past orchestras." Two orchestra members Elia Hernandez and Elizabeth Soderstrom are both taking part in Chamber Orchestra at UTEP. Elia also took part in state regionals. Sophomore David Varela made second-year concert orchestra. Some of the members of this class expressed their own thoughts toward the group and the art. "Each person has to do their best it's a team effort," Mark Exclusa said. Elizabeth Soderstrom included, "To make a good orchestra it takes a lot of time and dedication." Scott Gibson added that "This is a class with a lot of class."

A new breed of musicians

This year's guitar club consisted of 22 strong members from sophomore to graduating seniors. For the last 4 years the club has gone unnoticed in some areas such as performances and club participation. Some club members commented that this year's club was more exciting for the fact that they had performed better and in more programs, such as programs at Burges, Austin and contests. They hope to continue performing and showing their talents, they also hope to get more support as the years roll on.

The guitar club performs different styles of music such as classical, flamenco, and jazz.

Making a comeback after two years of absence, the German Club was ready for action. The club sponsor is Mrs. Englehardt. Formerly called the German Honor Society, it is now known as the German Club. The club's goal is to learn about the country's culture and language.

The club consisted of 15 students. The officers were as follows, President: Patricia Hippenstiel, Vice President: Monica Barria, Secretary: Rene Blancas, Treasurer: Cesar Negrete.

Among the various activities and or fund raisers which they participated in throughout the year were German candy sales and advent calendars during the months of November and December. The attended the Foreign Language Festival Tournament along with other German students from the El Paso Independent School District which was held March 15. Among the categories in which the placed were prepared reading, extemporaneous reading, poetry and prepared speech.

Helping the hurt feel better

You see them at football, basketball, wrestling, and other athletic events, always behind the spotlight, receiving little or no attention at all. These obscure figures are trainers here at school.

"Caring for the injured," this phrase pretty well sums up what trainers do whenever a person who participates in any athletic activity, here at Burges, gets injured.

These people must take special classes and receive special training from head trainer Mr. Pacillas in order to be a trainer. They seldom if not at all get recognized for their efforts.

"These kids are always striving to do their best whether it involves athletics or not," Mr. Pacillas said.

Being their best

For Mrs. Sameniego it has been an enjoyable year. This was also her first year as sponsor for Pegasus. Striving for excellence means sacrificing some lunch hours and spare time but the Pegasus staff doesn't mind. During the year they had fund raising activities to earn funds for their club. These activities required the support and help of the entire staff.

Pegasus is a literary publication that is done entirely by student's except the actual printing of the book. The staff submits their own stories and pictures to their editor Madeline Haddox. It is then decided which articles are to be printed in the book.

This year's Number Sense and Calculator clubs began renewing and learning skills in late October. Their sponsors were Mrs. McDowell for Number Sense and Mrs. Skanse for the calculator club. Their eyes were set on going to state competition late in the year. They participated in various city competitions through which the decision was made whether or not they would attend the state meet.

Both sponsors think very highly of these devoted members, as they gave up an endless number of lunch hours to be perfectionists. Those seniors that were in the club felt that this served as a good learning experience and they would definitely be helped by it in years to come.

Students show intelligence

This year's chapter of Mu Alpha Theta, the math club, consisted of seventy members, the largest group of students to belong to this club for many years. Members of Mu Alpha Theta were led by sponsors Mrs. Gene Woodruff, Mrs. Mary Traylor, and Mrs. Alicia Torres.

To be eligible to become a member, students must be enrolled in college preparatory math. An 80 percent average must also be maintained in their math classes, and an 80 percent average must also be maintained in all other courses.

This year's officers were: Jim Scott, President; Mercy Hernandez, Vice President; Leticia Dominguez, Vice President; Manny Reynoso, Treasurer; Liza Muro, Secretary; and Vivian Davis, Junior Representative.

Mu Alpha Theta held meetings on the second and fourth Wednesday of the month and officer meetings were held on the first and third Wednesdays. As a service to the school, members alternated to tutor students having problems in math before school in Mrs. Woodruff's room. Members also worked for various teachers during the mid-semester break to raise money for the club.

Speech furnishes act-tion

The emotions, feeling, and hard work are key attributes for creating a convincing character. The drama classes did various exercises to develop these techniques. Due to these class requirements drama students established self-confidence and talent to last throughout their lives.

Usually during a tournament there is a lot of other competition and it can last up to two days. The club attends tournaments in the following areas; Poetry, Prose, Pantomime, Extemporaneous speaking, and Improvisation.

The club competed in speech tournaments at the following schools: Las Cruces, Coronado, Eastwood, Ysleta, and Irvin. They also competed at the district 1 5-A University Interscholastic League Tournament.

For the district one act play contest, they performed a play titled ***In The Shadow of The Glen*** by J. M. Synge.

is the process of success

Good thoughts are like good friends. They bring us comfort, courage and inspiration and bridge over many a chasm of unhappy experience.

Failure is the only thing that can be achieved without much effort.

Most successes are built on former failures.

Inspiration is often born of Desperation

Silence is the most satisfactory substitute for Wisdom.

Experience is what you get while you are looking for something else.

Our greatest glory consists not in never failing, but in rising every time we fail.

Friendship is a responsibility, not an opportunity.

You cannot build happiness on someone else's unhappiness.

Of all the things you wear, your expression is the most important.

The way to accomplish much is to accomplish a little each day.

As pride increases fortune declines.

It may be a long way to a great goal, but it is never far to the next step toward it.

Nothing costs so little and goes so far as courtesy.

When wealth is 1st, nothing is lost; When health is lost, much is lost;

When character is lost, all is lost.

Don't expect other people to keep your secrets if you dont keep them yourself.

Next to excellence is the appreciation of it.

Virtue and Truth are the foundation of happiness.

The only people you should try to get even with are those who have helped you in some way.

Living without faith is like driving in a fog.

Most of us get what we deserve, but only the successful will admit it.

The only person worse than a quitter is the one who is afraid to begin.

Go as far as you can see, when you get there you can see farther.

Common sense is instinct; enough of it is genius

The remedy for wrongs is to forget them

They conquer who believe they can

By improving yourself the world is made better

He who never made a mistake never made anything

Oversleeping keeps a lot of dreams from coming true

Life is boring only to those who have no purpose

The only way to make a "come back" is to go on

MUSTANG FOOTBALL

The Mustang varsity football team kicked off this year's season with a bang. With cooperation, patience, and many hours of practice, the teamwork was noticeably starting to click even at the first few games. The team got close to making the bi-district play-offs, coming in fourth place by dropping their last district game. The Ponies finished off the season with a 6-3-1 overall record and 4-2-1 mark in the league games.

An outstanding player was Senior Leroy Ifill, 82, who was the team's leading receiver. Ifill also ranked high among the top receivers in the city. Doing very well for his first year as varsity quarterback, Junior Gabby Lujan led the Mustangs to many victories.

This year's team was under the guidance of Head Coach Milton Henry, Offensive Coordinator Bonnie Smith, Defensive Coordinator Robert LaRoche, and Head Trainer Manny Pacillas. Congratulations to the Mustang varsity football team for having such a good season.

J.V. FOOTBALL TEAM SPREAD THIN

This year's Junior Varsity football team consisted of only sixteen squad members. Which included Ruben Chavez, Jorge DeCastro, Sam Morgan, Eddie Galceran, Victor Perez, Jodie Scott, Fernie Carrasco, Ray Sanchez, Alex Gonzales, Victor Lopez, Ryan Skoronski, Jaime Yrigoyen, Richard Ledesma, Zavier Serrano, Todd Nicholson, and Armando Montenegro.

The team had a disappointing season. Because they only had an average of twelve to thirteen players per game. In spite of their talents and strong offensive and defensive lines they are having high hopes for the coming year.

Having worked with the players throughout the football season Coach Hodgson then added that he hoped next year's team would play with the same desire and intensity that the boys played with this year.

The players put in a lot of time and effort each day and practiced for many long hours after school.

To finish it off Coach Hodgson added "These young men really impressed me this year because they proved that they were winners on and off the field."

B-TEAM FINISH

The Sophomore football team other wise know as B-team finished their year off with a winning game over Jefferson. Though they did not come in first over all they did come in third.

Mr. Camilli quoted "Despite the key injuries to the key defense the team did extremely well."

Practice started in August with an extreme number of players. It started off as if the coaches Mr. Osborn and Mr. Camilli would have their work cut out for them. But they pulled the team together with grueling practices and massive weight lifting training.

While the team struggled those practices and massive weight lifting training they also met every play the coaches threw at them. But there were some days when the team was ready to throw in the towel. But Mr. Osborn and Mr. Camilli kept them on their feet, until they were ready to drop dead.

There were also times when the weather kept them from playing their games.

All and all the team and the coaches did extremely well.

SPIKERS KEEP

This year was an exceptionally good year for the Mustang volleyball team. They were 14-0 in district, increasing their league wins to 64 consecutive wins over the past 4½ years.

This year's two all city team players were Lisa Reza and Frances Lupo. Though the spikers have been undefeated in district play, their goal of making the state playoffs were cut short in the first round of the playoffs when they lost to the Ysleta Indians.

The team has acquired a home crowd advantage with a group called the Rowdies. They would stand through the games chanting their team all the way to victory. "There's always more room for improvement," Coach Bennett said.

VOLLEYBALL

J.V. GET SECOND

The Junior Varsity volleyball team had a great season this year. The young spikers finished second with 11-3 in district and 24-4 for the season. Plus they won the Austin tournament. They put a lot of hard work and practice into their playing and it showed in their games.

The team is made up of select players from the two junior high schools, Ross and MacArthur. The players practiced every day during third period, after school and on Saturdays. If their determination and team work produced results during their Sophomore and Junior years, look out for them when they are on the Varsity team.

Ms. McCutcheon used her strategy and skill to keep the team together and overcome pre game jitters that affect all teams.

GOLF

Prior to being this year's golf coach, Mr. Birkhead had coached at Coronado for 1 year and at Austin for 2 years. When asked how he felt about the school, he responded, "It's great!"

There were 17 golf members includng four girls. Among them were seven returning lettermen. The most valuable players on the team were Sam Castillo, Eric Nelson, and Mike Plymell.

To prepare for the meets the team practiced from 2:30 to 5:30 p.m. Monday thru Friday at the Cielo Vista Golf Course and Ascarate Park. There were a total of 12 tournaments which consisted of six boys and six girls.

Although it was to early to foretell how they would place overall, Coach Birkhead predicted the team would do fair, if not better.

To summarize the interview Coach Birkhead commented that there are a lot of good players on the team.

PONIES SOLVE THE MYSTERY

The varsity basketball season started in November with several pre-district games and tournaments. The team practiced from 2:30 until 5:30 everyday and on Saturdays. Their coach Tony Harper completed his 16th season of basketball. This year's team was the smallest he's ever had. There were seven seniors, four of those returning lettermen, two juniors, and one sophomore. Coach Harper felt that "the outlook on the season was to be competitive in all the games." The team had strengths and weaknesses such as their defense and height respectively.

The team played several scrimmages against non-district teams and attended different tournaments. One particular tournament they attended was at Bel Air known as the Big Red Tournament. There the boys came in first place. District started in December with a district opener against Bowie. They finished off the season with a game against Irvin. Players felt good overall about their season. One even felt "we should have been higher, but we lost too many games we should have won," said Manny Reynoso. Another felt, "the games we had away were too many and there were not enough people supporting us," commented Richard De La Cruz.

J.V. TRYING OUT NEW IDEAS

This year's junior varsity team was made up of nine players all of them sophomores. The team was coached by Pete Lewenski, who was also assistant coach to varsity. Coach Lewenski taught these young players all of the tricks of the trade, preparing them for varsity basketball in their future high school years. Coach Lewenski felt the team did as good as expected for their experience and felt they will be in good shape by the time they make the varsity level. Part of the training involved was practicing from 2:30 to 5:30 in the afternoon and on weekends and 8:00 to 11:00 in the morning on weekends. This took much of the boys' extra time, requiring dedication from the players to keep up with their vigorous schedule.

The boys' schedule started in November and ended in February which included district and non-district games and tournaments. They attended three tournaments and played seven non-district games. Their district opener was against Bowie and finished the season with a game against Irvin.

GIRLS' BASKETBALL . . .

The girls' basketball team kept up their tradition by playing extremely well all season long.

Ms. Smith, the coach of the girls' varsity team, has been coaching here for two years now and she had this to say, "I am very proud of the girls, they did extremely well all year long. They practiced strong and stayed that way all season. I hope that my returning girls will do as well as they did this year, and I wish all the luck to the girls who will not be returning."

The girls started to get together during the summer, to play a few games of basketball.

In September the girls started to get into shape by going swimming at Hawkins Pool. There they would swim a few laps and do some exercises in the pool. They also ran a mile for about a month and a half.

The Junior Varsity team had the pleasure of being coached by Ms. Fields. She not only coaches the basketball team here but she also coaches at Ross. When asked how she felt about the team she said, "I am very proud of them and they did successfully well. The girls practiced well and tried as hard as they could, I could not have asked more from them if I could."

On the team all the players are very important and not one of them should be left out but there are four very important and valuable players on the team and they are Cynthia Hernandez, Christie Ibarra, Melissa Diaz, and Cathy Pigeon.

The toughest opponents they had this season was Coronado. To help wind-up the whole season Ms. Fields said this, "It's not all over until the fat lady sings."

Mr. Ottmann has pushed his team to the outstanding group of athletes they are today. The team's top wrestlers were Mike Hernandez and John Hafen.

This year was a rebuilding one for the Burges wrestling team and the future looks very promising, with only four returning lettermen. The Mustangs relied heavily on young and inexperienced wrestlers.

The two captains were Mike Hernandez and John Hafen. These two leaders provided guidance and set a good example for the rest of the team. Coach Tim Ottmann feels next year's team will be a more productive year for the Mustangs.

ONE OLD TRADITION

Coach Robert Osborne had his work cut out for him trying to fill all the positions that were left vacant by last year's basketball team members. "This year's team was made up of juniors with no varsity experience and seniors who have to prove themselves capable of producing at varsity level" Coach Osborne said. He also added that the team's ability was tested by some of the best programs in West Texas specifically with their season opener against Lubbock Monterrey and Hanks who was last year's defending champions. The potential of this year's team was completely unknown at the first of the season with only a few returners from last year's team, Coach Osborne commented. Before this started, during tryouts, all the positions were available making this past season a rebuilding season for the Mustangs baseball team.

The Junior Varsity baseball team started practice February 2nd, when they began their physical training. The training consisted of running triangles, pitching, catching and swinging the bats in order to build up their upper bodies.

"Although their batting was excellent, their pitching and catching still needs improvement," Coach Camilli stated.

The team was expected to place in the top three in district, with Coronado being their toughest competitor throughout the season.

The team consisted mostly of Sophomores and Juniors. Coach Camilli expects next year's team to do just as well as this year's.

As The baseball season ended Coach Camilli said, "I am very proud of the team's accomplishments, and am greatly looking forward to next year's team.

BOYS' TRACK TO THE FINISH

This year's boys' varsity track team was led and trained by Coach Paul Alsup. The team consisted of 33 members, including seven returning lettermen. These returning lettermen were: Mark Hogue, Ronnie Delgado, Abel Romo, Marc Ranc, Gerardo Chaparro, Doug Berry, and Rene Vergara. Many of the boys were inexperienced in varsity competition, but their skills and talents helped the team overcome this obstacle.

The boys' track team was well rounded. They were able to score in most of the events at the meets. The team was very strong in the weight events, distances, and the hurdles. "We hope to steadily improve throughout the season and be in good position to compete well at the district championship," commented Coach Alsup.

The boys dedicated much of their time for this team. They practiced from 2:30 to 5:30 each day.

Some went from 2:30 to 5:00, while others went from 3:30 to 6:00 p.m. Their workouts consisted of weightlifting and practice runs.

Although there was not a B-team this year, the varsity team did compete in 14 events, five of which were field events. These included long-jump, high-jump, pole vault, shot-put, and discus. Their strongest event was the long-distance run, and when asked what improvements needed to be done Miss McCutcheon replied, "We're working on our field activities.

Overall, Miss McCutcheon summed the team up as, "being more enthused than others in past year. Their main concern was not the weekly meets but instead focused on shooting for the district title."

GIRLS' VOLLEY TO WIN

The girls' tennis team was one of the examples of Mustang pride in the sense that they never quit trying.

Even though their losses were discouraging their victories proved to be successful due to their performance out on the court. A lot of effort and dedication was not only put into their games, but also into their practice. Some of their workout exercises included lines, running, jumping and the shuttle which they practiced during last period and after school.

The team was composed of 10 girls, two of which placed second in the El Paso High Tournament and the El Paso Junior 16 Doubles Tournament. These two competitive girls were Raquel Alba, the number one player, and Pat Bowden. One of the most promising players, Claudia Hippensteil, who graduated in December, was second to Alba on the team.

This was Coach Stephen's first year coaching the Mustang girls' tennis team. He proved to be dedicated in the respect that he was always concerned and giving the team great support.

Some of the school's athletes were the boys on the tennis team. The most promising athlete on the tennis team was Andy Wilson. The rest of the team also played very well.

A lot of time, dedication and staying after school for practice were very critical elements in making a good team. Though the losses may be deceiving, their wins were hard fought.

Some new players registered for the spring semester. With hard work, they made the team stronger. The juniors on the team are looking forward to next year and making the team more productive.

Some of the events for this season included a Mixed Doubles Tournament, and 8-Team Tournament against schools from Abilene, Odessa, and Amarillo.

SWIMMERS STRIVE FOR VICTORY

Time, effort, and hard work are all ingredients that the people of the swim team are required to possess. This means sacrificing some things such as waking up early and be ready for practice by 7:30 a.m. each morning.

This year the team consisted of 12 members and the manager was Larry Yrigoyen. The most important requirement to be on the team was know how to swim to and from the length of the pool.

When asked about how they performed during the meets, Mrs. Perdue commented that on regular meets when they competed with other schools the swimmers did alright. To qualify for state they had to finish first, second, or third in district and then swim for regionals and must have finish in first or second.

Mrs. Perdue was proud of the accomplishments of the swimmers and summed the interview by saying, "The swim team has outstanding members and are trying to increase the number of members for next year."

SOCCER TEAMS' FIRST YEAR

This was the first year soccer was introduced to the El Paso School District. Despite the fact that this was both the girls' and the boys' team's first efforts, the boys' team was able to capture second place in the district.

The team is composed of 20 guys and its team captain, Steve Bautista, believed that their team could have won first place if they had spent less time adjusting and more on concentrating on their games.

"I think it was good that soccer was included as a school sport. Actually it's a successful program and it'll probably catch on in the other schools," Bautista said.

On the other side of the field we have the girls' team which is also made up of 20 girls. The two team captains are Cindy Paredez and Adriana Guzman. Although none of the girls had ever played any soccer, they did very well as a team and they never quit trying.

With both soccer coaches, Javier Quintana and Mary Lou Andrade, behind the teams, they worked hard giving soccer their best shot.

CROSS-COUNTRY CATCHES UP

This year has been a very special season for the cross-country team, they had one of their school meets on Edgemere this year and this has never happened before.

Mr. Alsup the coach of the team said "Despite the colds and injuries to some of the runners the team did extremely well. They worked hard and practiced well all season long." He also had to say that he was proud that his team beat Coronado High because they were supposed to be number one in district.

Coach Alsup was not kidding around when he said, "We did in fact work hard all season long." Practice started in the first week in August where they ran three to four miles a day and lifted weights every other day. As weeks passed by they increased to seven and eight miles and finally toward the end of the season, they were running eight to 12 miles a day. All of this hard work paid off by the way they increased their speed and finished in the meets.

The team showed off what they had at the district meet by taking first place. And in the state meet by placing eighth.

WORKING HARDER THAN EVER

This year the Junior Varsity team placed well all season long, as shown on the scoreboard below. They came in 1st half of the time which is a great accomplishment for this small team. To come in first the team had to have the lowest number of points. They got their points by coming in between 1st and 20th in the meet. "All in all the team worked hard and ran well all season long," said coach Alsup.

Practice started in the first week of August for the team. They ran a few miles a day and weight lifted every other day.

Something new went on this year for the team they run in the Crime Stoppers run where the team placed 1st over all the other teams. Many other schools participated in this race, but the team won the race.

Something else happened this year for the team, they had one of their meets at home this has not happened for a long period of time. The team hopes that they could have a home meet every year.

GIRLS PLACE 2ND IN DISTRICT

The girls' varsity cross-country team, despite their busy schedule, did very well throughout the season. They attended several invitationals which led up to the district championships. Throughout the months of September and October, they ran at the Bel Air, Riverside, Burges, Coronado, Alamogordo, and Mayfield invitationals.

Their final competition was at Coronado, which was the District championships. There they were proclaimed district champions for the second consecutive year and qualified for the regional meet to be held in Lubbock, Texas. In Lubbock they finished in third place and qualified for state competition. State competition was held in Georgetown, Texas at Southwestern University. There they finished seventh in the state. Coach Alsup is very proud of his girls and how they finished overall in the season. The girls feel good about their season. Margaret Brooks had one thing to say about their season, "I am very satisfied with how we finished and I'm going to miss the thrill of competing against other runners."

X-COUNTRY STRIDES TO VICTORY

This season practice started in the first week of August where the girls were running two to three miles a day. Then as weeks passed, they were running four to six miles finally towards the end of the season, they ran six to eight miles a day.

Running is not the only kind of practice they had, they also had weight lifting every other day.

In Cross-Country the team scores their points on a one to ten basis, where one is the best and ten is the worst. Mr. Alsup, the coach of the team said, "Despite the colds and injuries to some of the teammates, the team did extremely well. Next year I am hoping for an even better team."

This year something new happened. The team had one of their meets here at school which was the first for them. The team is hoping that this will be a new tradition. They placed third in district at Coronado High School.

GYMNAS

This season one of the new changes brought about in gymnastics was the morning practice schedule which started at 7:00 a.m. When asked how this affected her academically, Senior Rosa Ortega replied, "It was hard at the beginning, because at times I had a difficult time getting all my homework done, going to night school, and be there the next morning."

The team had eight regular meets before the city meet. Overall, they predicted they would place in the top three. When asked how she felt about this year's team, Miss Esparza commented, "This year I was very optimistic, the team would do well and excel in their events. I had three returning lettermen Rosa Ortega, Kristy Lane, Mary Garrett, and a new member Martha Ramirez, in varsity. The squad improved and looked forward toward city competition. As for Junior Varsity, they are a young group that shows a lot of promise and enthusiasm."

BOYS EXERCISE FOR FITNESS

One of the requirements for graduation was one-and-a-half credits of physical education. If a student was not involved in team sports, marching band, or R.O.T.C., he must fulfill this graduation requirement by taking physical education classes.

This year Coach Bonnie Smith, Coach Paul Alsup, and Coach Bob Osborne were in charge of teaching physical education to boys enrolled in the classes.

Every student enrolled in these classes had to go through at least four weeks of conditioning at the beginning of the semester. After this primary conditioning, students started participating in sports. Different semesters include different types of sports. Overall, physical education classes include such sports as golf, bowling, football, handball, racquetball, basketball, and archery.

WORKING OUT HARD . . .

The Physical Education teachers this year were Coach Paul Alsup, Coach Bonnie Smith and Coach Bob Osborne. Although P.E. is a requirement for graduation students can take other options such as R.O.T.C., marching band, be involved in team sports or be in modern dancing.

According to the semester curriculum a student is enrolled in, the activities will vary. Some of the sports included in the class are football, racquetball, basketball, bowling and archery. However, before the girls are able to participate in any of the sports, they go through a conditioning period.

This period goes through all the basic excercises. They do everything the guys do from running, to doing situps and pushups. Doing all of these excercises put them in tip-top-shape all throughout the whole semester.

Captains steer the school

Mrs. Olga Jorjorian is in charge of curriculum and instruction. In more understandable terms, she determines what classes will be offered each semester and she also determines how many students will be allowed per class. Mrs. Jorjorian has worked in every district of the city. To Mrs. Jorjorian, Burges is not a strange place. She started teaching English here in 1955 when the school was first opened, and has since been almost everywhere.

This year, Mr. W. Craigo completed two-and-a-half years of being an assistant to Mr. Tom Chavez. Mr. Craigo is responsible for the discipline of the Junior and Senior classes. He is also in charge of absences and tardies. Mr. Craigo graduated from this school in 1968. The former Mustang commented that the only big difference in the school was the dress code and the means of discipline.

Mr. Dean Silva has also been at this school for two-and-a-half years. He keeps up with all of the Freshman and Sophomore classes and the bussing programs.

Counselors work on students

The counselors spend a lot of time before, during and after school trying to assist the students in any way they can.

The Senior Counselor, Mrs. Sharon Cowell, assists the seniors in making their final preparations for graduation. The time she spends with seniors really helps them understand and gets them ready for whats to come in the future.

The Junior Counselor, Mrs. Navarro, helps students in realizing and reaching his or her fullest potential.

The Sophomore Counselor, Mr. Handley, assists each student in trying to ease the transition from junior high to high school.

Last but not least, the Vocational Counselor, Mrs. Grijalva, who assists those students who take vocational classes and vocational training at Technical Center.

Junior Counselor Mrs. Navarro.

Vocational Counselor Mrs. Grijalva.

Senior Counselor Mrs. Cowell.

Sophomore Counselor Mr. Handley.

Always alert in attendance

The attendance office was run by three attendance clerks. Ms. Mary Ortiz, the Head Attendance Clerk, has been working in this school for eight years. Mrs. Kate Rojas has been working for this school for five years, and Mrs. Charlotte Gearly, who at first worked in the library, has been with the school for ten years.

The attendance clerks take care of classroom card attendance. They make out principal reports every six weeks and also write yearly reports on attendance.

The attendance clerks had twenty-five courtesies to assist them. They help the clerks by picking up the attendance cards from the classrooms. The courtesies also learned various office procedures, including answering the switchboard, which gave the courtesies responsibility while learning how to run an office.

Making the money matter

Mrs. Pat Antwine has been working as the business agent since April, 1984. The business agent's job is to take care of all the financial matters of the school. Most of the money pertaining to the school must pass through Mrs. Antwine's hands. Her office is the connection between the students, and faculty and the bank.

During the football season the business office sells football game tickets. Mrs. Antwine will give change and also sells lunch tickets. These purposes for the business office are obvious, but there are many other reasons for the business office that many people are not aware exist.

Students paying tuition to come to school pay at the business office. Students planning to take the PSAT or SAT tests can pay the fee at this office. Money coming in from weekly newspaper sales is handled by Mrs. Antwine. Yearbooks can also be purchased at the business office. The business office also keeps track of all the school's clubs' fund raisers.

Registrar keeps students filed

For the past three years, Mrs. Pacillas has been working in the Registrar's Office here at school.

Prior to that, she worked at Hart Elementary School, Henderson Junior High School, and at Jefferson and Bowie High Schools as a teacher's aide, counselor's aide, in the attendance office as a clerk, and a computer clerk.

As the registrar, Mrs. Pacillas has to do record keeping, post student's grades into their permanent records, evaluate new students, work on the Grade Point Averages of each student, and determines whether or not a student graduates. The records of each of the students are kept for five years after they graduate.

"It's a matter of keeping records and official documents accurate," Mrs. Pacillas said.

Secretarial duties prevail

Miss Schramm is the secretary to Mr. Chavez. It is her second year here at Burges. She had previously been employed by Central Office, where she had worked for eight years. She found out about an opening for a high school secretary of a principal. She was interested and applied with twelve others and was selected.

Her first year here was uncomfortable because she had to get accustomed to changes. Now, she finds herself learning new things each day. Some of the things she does are schedule appointments and conferences, incoming and outgoing mail to Mr. Chavez, in charge of the payroll, schedule substitutes, and distributes all mail. Besides all of these things, she does all general office procedures.

Her job is different from day to day because of changing policies and rules. Now that the grading system has changed from a "would be passing 60" to a 70, she has a lot of work to keep up with.

She has a tremendous responsibility towards the faculty and students and she does a great job at it.

Truly a book's paradise

For the past two years, the book room has been attended by Mrs. Veronica Scarola.

She keeps track of the books, makes dittos for teachers, clears students when they transfer, and takes inventory of all the books and supplies.

She also keeps track of reference books like dictionaries, teacher's supplies such as pens, pencils, ditto masters, ditto paper, typing paper and she also keeps track of the lost and found department, if clothes are not picked up by the end of the year, she sends them to an orphanage.

Mrs. Scarola not only does work for the book room, but she also types memos for Mr. Craigo, one of the assistant principals. "Working in the book room is very time consuming and back breaking," Mr. Craigo says.

If you need to know about books, Mrs. Scarola is the one to see.

Mr. G.: the school's promoter

For 28 years Mr. Gutierrez has been working in the El Paso School District, but for 12 of those years he has been in the seat as the Student Activities Director. Mr. G, as he is know to students and faculty, is one of the most active and spirited persons around campus.

In 1959 he was the director of ROTC and worked in that department for 16 years. He also taught American History and World History at Andress High School during 1968 and 1969.

He also had the opportunity to teach Government here at school in 1970. In 1972 when the office of Student Activity Director was vacated he applied for the job and got it.

"I love my job because of the variety it has. You never know what's going to happen next. I enjoy working with young people and the faculty."

Mr. G sponsors Student Council, the Junior and Varsity cheerleaders, and runs the concession stand at games. He also works with workshops, organizes the graduation march and helps the needy with the canned food drive at Christmas.

Custodians keep school neat

The custodians are often taken for granted as to what their jobs are. Certain people may believe that all they do is sweep the floors or throw away the trash. But, their jobs go far beyond those two simple tasks. They keep the school in good working order, such as lighting, heating and cooling, and clean bathrooms. They help the students out whenever help is needed and always keep the rooms clean. The list is endless as to exactly what they do, but it is a hard job that some of us that take it for granted could not do ourselves.

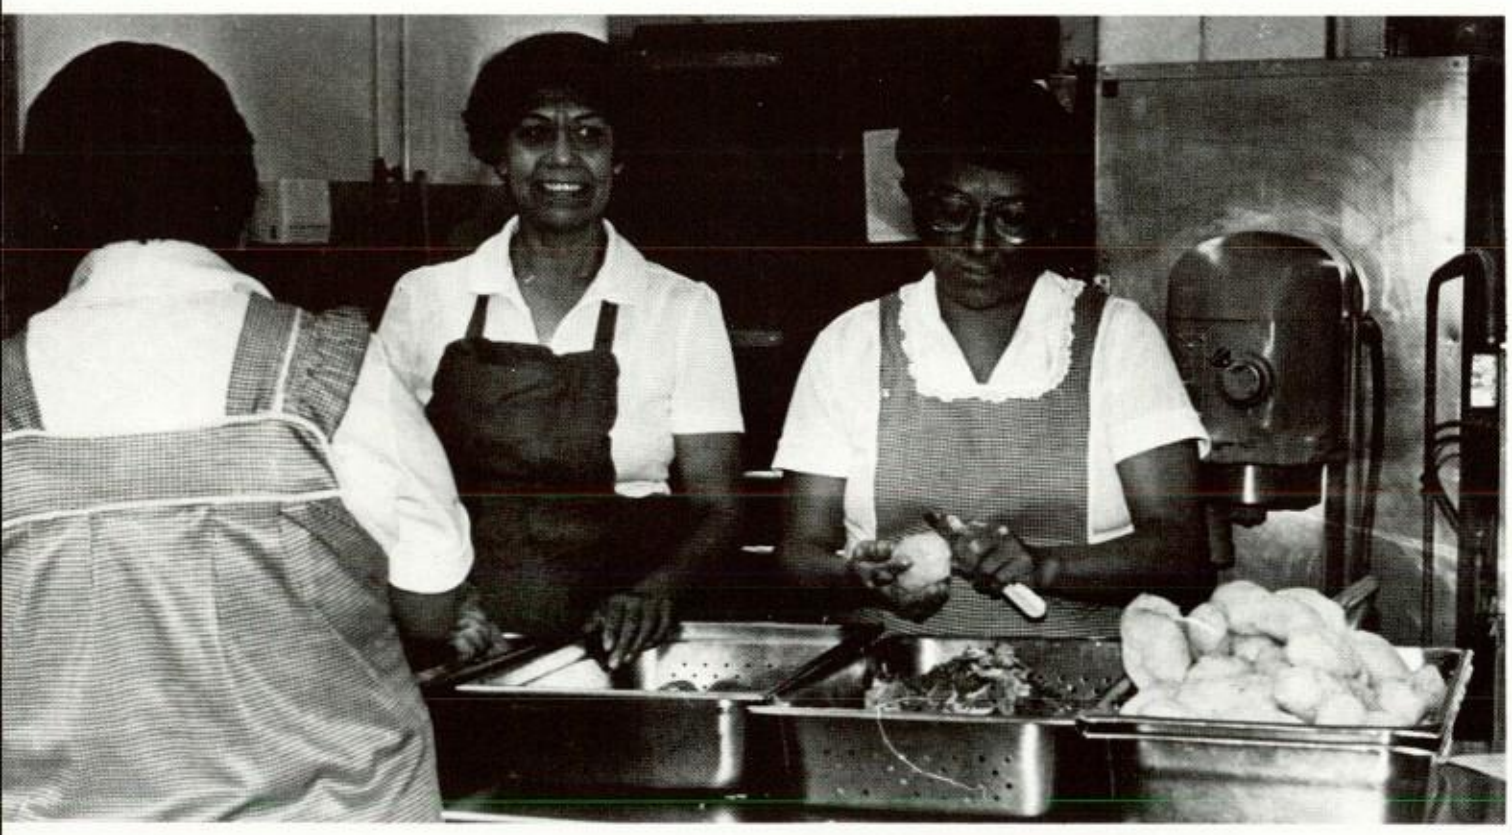
Cafeteria workers prepare the different items for lunch.

"Rise and shine" is what the cafeteria workers probably heard every morning before having to come to work. All workers had to be at school at 7:00 a.m. to begin preparing breakfast for those students who had tickets. Soon after that they had to clean up and start preparing the lunch meal. Lunch was probably the busiest because of all the students eating in the cafeteria. At the sound of the bell to go back to class, there was a sigh of relief. All that was needed to be done was cleaning up which was a task in itself. The workers were able to leave school at 2:30 and rest for the coming of a new day.



Keeping the school healthy

Having heard everything from "Ooh my stomach," "My head hurts so bad," "My throat is sore I think I have tonsilitis!" the nurse has had her share of student related illnesses. Her motto is, "If you are sick you can go home — if not then go back to class."

Mrs. Towns, the school nurse is a graduate of Hotel Dieu School of Nursing. After graduation, she worked at a hospital, but found school nursing more appealing.

She has been here since 1958. After working here for so long, Mrs. Towns has had the opportunity to treat generations of students.

When asked, "Do you have a day to day routine?" She replied, "Never, it is a new experience every day." Sometimes her expertise is required to attend to accidents that occur before, during and after school hours. In addition, she is responsible for checking the students eyes and their hearing. She also keeps track of students' immunization records.

The home of a bookworm

The library is a nice place to go when you need to get your homework and classwork done. It not only provides books and magazines, but it also has microfishes, records, files and documents and latest publications of yearbooks.

This year the library staff increased by one person. Ms. Donna Johnson. She has been working at other school libraries until last March when she joined our staff. When asked on how she felt about working here, she had this to say, "I enjoy working with the students at Burges. Most of them are very polite and make every day a pleasant experience."

Another of the librarians is Ms. Terry Perez, she has been working here for six years. When asked how she felt about her job she said, "There is never a dull moment working in a high school library. The job offers a variety of challenges, I especially like working here at Burges with our students and fine faculty."

Winter season for child care

Child Care helps students achieve the knowledge of working and helping children, ages three to five prepare for kindergarten, at the same time parents can go to work or school. Students can use this knowledge when they are parents or for a profession later on.

The children develop in five different areas physical, moral, social, emotional and mental. This year there are twenty-two children in this class. The safety of the children has to be well kept, but the children learn safety and become independent. While the children grow and achieve the students gain responsibilties.

The students help the children gain approval to feel significant and to be accepted. Respecting the image of authority is a basic need for the children. Another basic need for these children is play so can associate with other children.

Vocational Education pays

Enrollment is based upon the tudents interest in the occupa- ional area which will in turn repare them for gainful employ- ent in that related occupation. Enrollment at Technical center is pen to all students regardless of thnic background, sex, and han- icapping conditions.

Students are admitted into vocational education programs by completing an application for vocational education and interviews with Mrs. Grijalva, the vocational counselor.

All vocational classes at Technical center meet three to two hours per day and students are granted three credits for successfully completing the course. Students are bussed to and from Technical Center and from the home school. Students are screened for grades and attendance to be accepted into Technical center.

Orthopedics get special help

The basic goal of Mrs. Berry and the orthopedics staff is to find employment and give their students basic tools for survival. They use the A.I.M. system as the basis of their teaching. A.I.M. stands for Academic Independent Management.

Each student works on an individual basis and skill level. The class offers the students basic living and adaptive P.E. skills. The living skills include cooking, ironing clothes, and other daily chores.

The orthopedics section deals with multi-handicapped students. The students spend half day here and half day at Tech. center. The teachers and counselors try to place the students in regular classes or what they call placing them in the mainstream. Some of the students cannot be placed in the mainstream so they attend Mrs. Berry's class.

Campus patrol on the guard

It has been said, "A security guard's job is never done" and so it has been proven by two of our most qualified security personnel, Mr. Roy Martin and Mrs. Chris Gomez otherwise known as "Baretta" which was a nickname given to her by the students when she started working here. She does not mind being called "Baretta" since it was given after a once popular detective program.

Mr. Martin has been in our staff for a total of 9 years while Mrs. Gomez has been here for 8 consecutive years. On a day to day basis their job varies a lot. One day they might have to report a student to Mr. Craigo or Silva, or tell students to get out of their cars, while another days they may have to clear and patrol halls, or even tell intruders to stay away from school campus.

But really whatever the job asks of them and their skills they will both do the best they can because the main and utmost goal of their job is to enforce and enact discipline, authority, law, and security.

Mr. Martin prepares to leave after a long day at school.

Campus Patrol checks around the school to see if everything is all right.

Mrs. Gomez makes sure that students are in their class.

U.I.L. spellers find best words

All year round the students involved in the spelling team for U.I.L. (University Interscholastic League) were hard at work. Throughout the year students had to make a great effort for studying, due to the addition of seven lists that were added to the 14 lists of words that must be learned for the competition.

The team, which met on Tuesdays and Thursdays during their lunch period, learned two lists a week. This was the 6th year Mrs. Brown has sponsored the Spelling and Plain Writing Contest at school. "It is more difficult to find students with the right penmanship rather than finding good spellers," Mrs. Brown said.

First row (l-r): Octavio Gonzales, Tisha Dominguez, Bonnie McDonald. Second row: Larry Cano, Vivian Davis, Sass Mignon. Third row: Cindy Simmons (Assistant Pronouncer) and Mrs. Jacqueline Brown.

Mrs. Brown smiles pretty for the camera.

While working hard Larry Cano stops to concentrate for a minute.

Sass Mignon takes a little break.

Sackers chip in new sport

One of the latest and newest pastimes has been the Wide World of Hackysackers. The sport of hackysack takes a lot of eye and foot coordination and good body balance. Most of the participants had a rough time getting started, but now it's more of a challenge to be better and of course, show it off.

The sack is made of a leather sewn sphere with plastic beads on the inside. There are about three groups around the school, approximately 20 players. Some of the finest players and David Pena, Tony Meulla, Jessie Moreno, and Sammy Tinajero.

The groups have been out till 5:00 on school grounds perfecting the talent. The snow and rain earlier this year was some what of an obstacle for these groups to play, but now with the warm weather their playing is as good as ever.

Senior Sammy Tinajero and David Lardizibal experiment with the Flying Sweep.

Junior Tony Muella and Danny Chavez want a piece of it.

Senior Jessie Moreno prepares to take control.

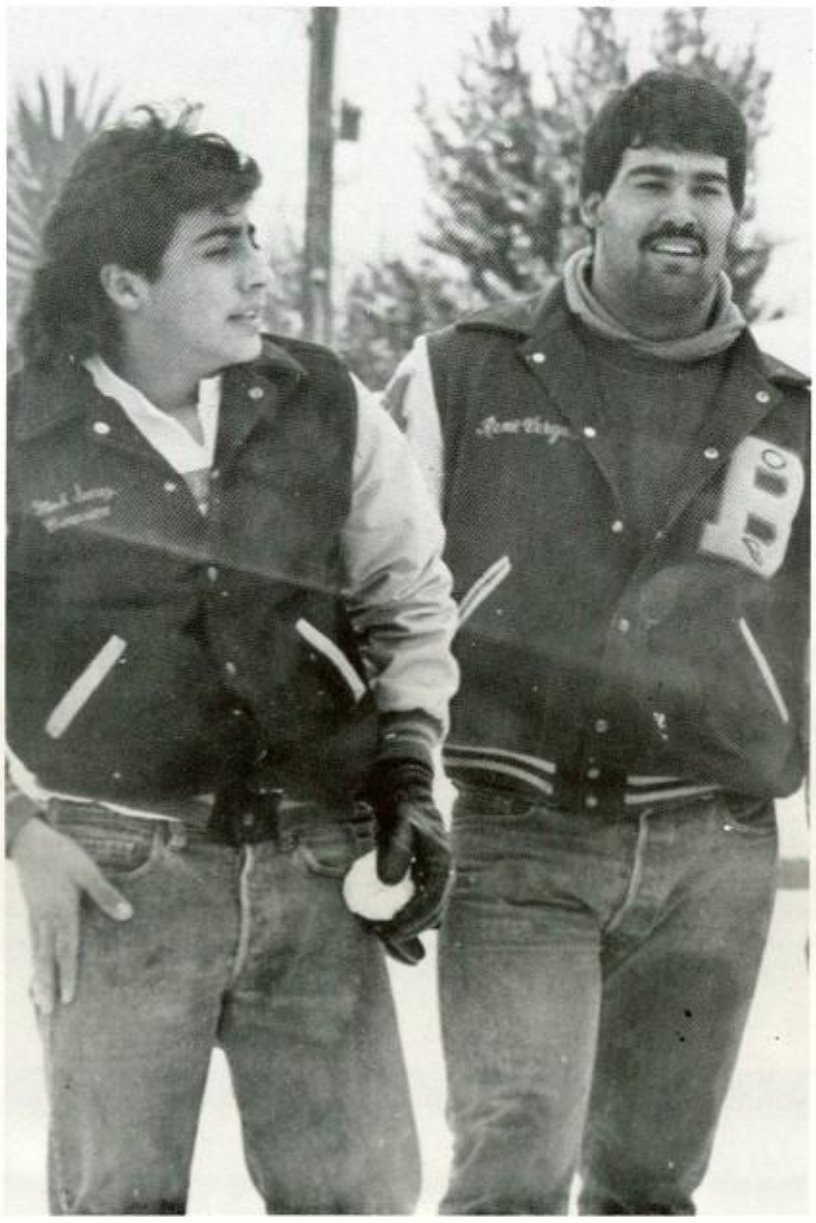
Officially 8.3 in. of snow

Being El Paso, one would hardly imagine the Sun City covered with a white blanket of snow. But it's true, El Pasoans did get their share of snowflakes this year. Throughout the city there were a different number of inches reported. Probably the worst section hit was the Northeast area where an estimated 9 to 10 inches of snow had fallen. Las Cruces was said to have had up to 15 inches. Snow did come as a shock for most visitors of the Sun City, but despite the cold weather they enjoyed themselves just as much.

So much snow accumulated, that on February 1st less than 100 students attended school. Instead, many students stayed home, built a snowman and had snowball fights. But whatever activity they participated in one thing is certain, we all enjoyed the snow!



Waiting for a snow ball challenge are seniors Mark Saenz and Rene Vegara.

Senior Kevin Gallagher poses next to his snowman friend.

Favorites picked to represent

Classification Favorites are those students who were chosen by each class to represent them at Burges-in-Bloom. The elections were in February with each class having a separate ballot. Votes were tallied and the winners and runner-up were chosen. Representing the senior class were Marty Olivas and Nora Noriega, runners-up were Leticia Dominguez and Leroy Ifill. The junior class was represented by Gabi Kennard and Manny Reynoso, runners-up were Margie Euzarrage and Cesar Negrete. Sophomores were represented by Mike Gamboa and Corina Perez, runners-up were Gloria Guzman and Steve Dominguez. When asked about how they felt, the reactions were different. "I was very happy to represent the junior class," Manny Reynoso, said Nora Noriega had the same reaction "I felt very proud to have been selected, I couldn't believe it when they announced my name."

Programmed for success

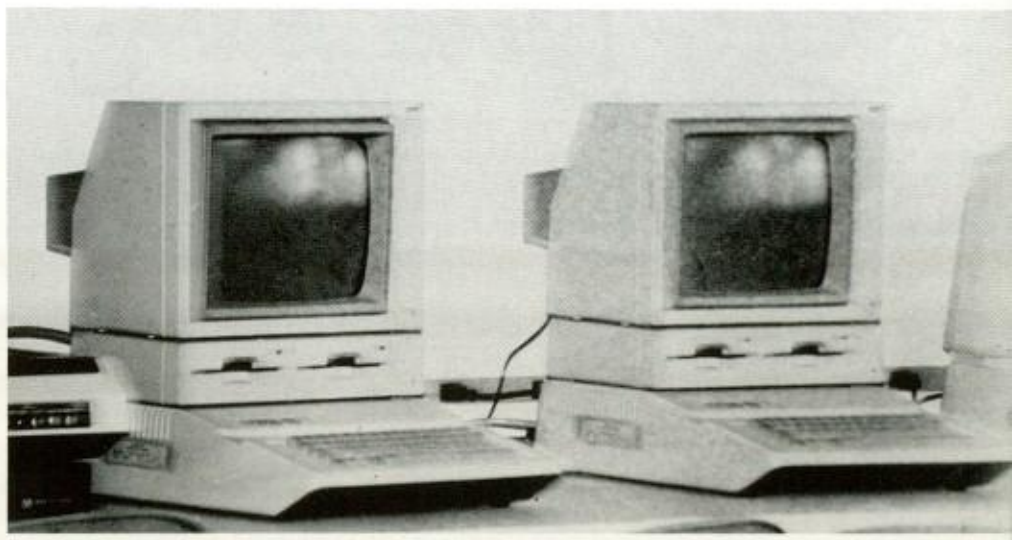
The 80's are the new era for computers. This year the Business Department received 15 new Apple II Computers. These systems included disk drives, printers, and the new Giltronix Peripheral Share Device 8000 which allows different computers to share the same printer simultaneously. These computers were being used by the two word processing and two Data Processing classes.

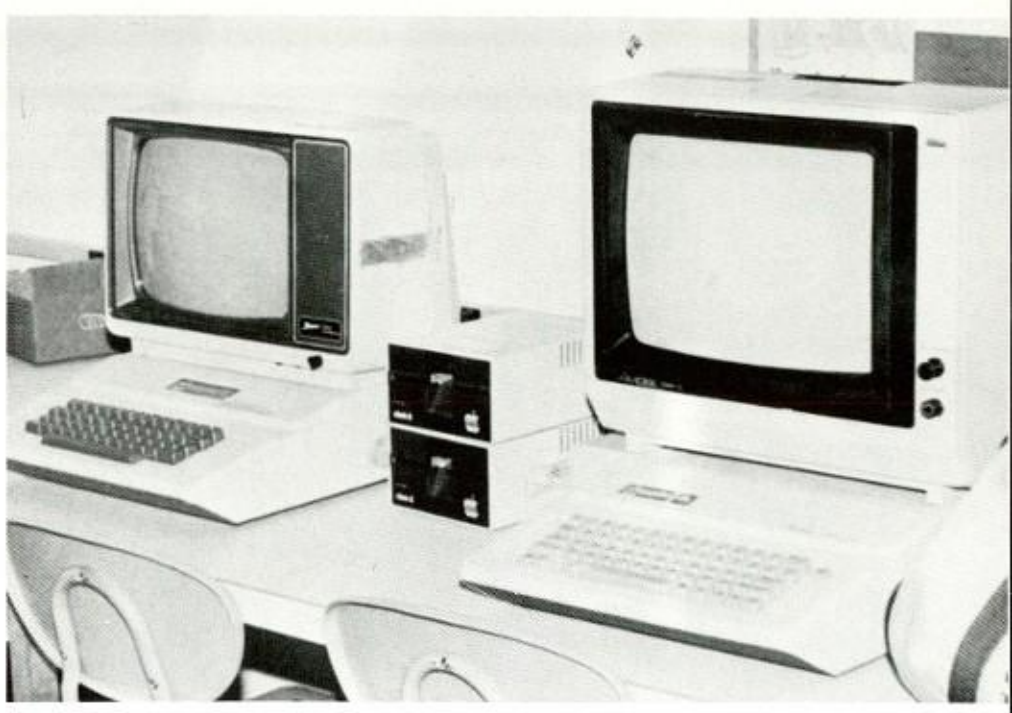
All the teachers who taught classes using the computers believed that the computers would benefit the learning of students.

Mrs. LaFoy, Chairperson for the Business Education Department, says that word processing is equivalent to Advanced typing. "Before we got the computers, we had to walk downstairs and share the computers in the math department. Now it's great that we had the computers closer in relation to where the Business department is located."

Since the computers came into use, more students have signed up for the courses being offered with computers. Only 4 years ago there were only five computers in the whole school. Now there are total of 45 computers in the various classrooms.

"Computers are a new world and students need to participate," Mrs. Traylor commented, adding, "Computers are the best motivational tool there is."





Seniors Nora Noriega and Richard De La Cruz check out their work on the computer.

Editors work year around

This year has been a long and rememberable year. Like everything in life we had our disagreements, but we never let it effect the work we did and we always managed to meet our deadlines. During deadlines it was hard and frustrating, everybody was at each others throat, but the work always got done.

I think this year's staff was quit a bit more cooperative and productive than the previous year. They showed a lot of patience and a great imagination and neatness. This year's staff was very inexperienced at the beginning but it didn't take long before they got the swing of things. We put in long hours after school and at night.

But in the very end all the struggle and effort was forgotten and the book was our pride and joy.

EDITOR: DESIGNER:

Sammy Tinajero

Having been in the yearbook staff last year, it was a great satisfaction to be one of the editors this year. When they told me it really did come as a surprise. We really strived and worked extra hard for an even better yearbook then past years. Our supervisor, Mr. Mosier inspired us a lot to achieve this goal.

Probably the most pressure came when the deadlines had to be met because it meant coming in at lunch and staying after school or even coming at night and staying for several hours.

The yearbook did get off to a great start and with a lot of effort and teamwork it was completed. After the yearbook was completed we all breathed a sigh of relief.

All the hard work paid off. When we held our annual award banquet at which time some staff members were awarded for their contributions.

Good Luck Next Year's Hoofbeat Staff!
Editor, Designer and Copywriter.

Lily Tovar

It started out as a lot of hopes and dreams some of which faded and some of which we accomplished. It is too late to change this special year and the little things we used to do, the special times we shared, but mostly our memorable treasure which to each and every one of us shall be special. Our friend and our best friends shall leave a saying which shall mean the most in years to come. I would like to say this year our staff was the most reliable and distinctive in their own way. We had our problems like everyone else but always thinking about the book never let us stop and forbide what we wanted in the first place. The best for us seniors, to see splitting seconds of thing that can never again be quite the same.

The year of 84-85 has come and gone. We can only Look back and "Remember the Moments."

EDITOR, DESIGNER, PHOTOGRAPHER:

Jesse Moreno

It's rather late to change anything this year, some of us wish to change the whole year others wish it could happen all over again, but now we can only look back and remember our dreams, our wishes, and our hopes. Soon our friends will be far away, some will never be seen again, some shall be friends forever, we can only appreciate our times we spent together, looking at the times we shared, sharing our happiness, our sadness, sharing our victories, and our accomplishments. Being a senior is a special time which can never happen but once in life, we wished we lived in the past to recreate our happiness and remember the moment that stayed in our hearts, it's over now, all is past and the only thing left is a rememberable treasure that will someday make us laugh or someday make us cry.

We of the Hoofbeats staff would like to say every moment we struggle, every moment that was put into this memorable treasure was always done to the very best ability of everyone on our staff. We would always think of the day that someone, someday, would open this treasure and see the past the way it was in '85.

Remember the moment always, God bless you all, and good luck always.

Your editors,

Sam Tinajero

Jesse Moreno
